Raising support in a race Harris is narrowly winning

Tracking Survey, September 2024

YouGov Blue

Sample methodology

- Democracy Corps conducted a web survey with 2,710 voters from September 13 to September 19, in the presidential, House seats and US Senate battlegrounds for the 2024 general election. The data include a **base sample** of 1,414 registered voters representative of the battleground states and Congressional districts overall, with oversamples of 630 Black voters, 594 Hispanic voters, and 413 Asian American or Pacific Islander voters. The oversample data are statistically weighted to ensure the sample's regional, age, and gender composition reflects that of projected 2024 general election voters in the collective battleground.

Key Findings - 1

- Harris is ahead in the Rust Belt states (829 sample), with a lead comparable to those of the public polls. That multiple surveys give her in a 2-point lead in each state means she is much more likely to occupy the White House.
- But Trump has successfully focused on the issues that are animating the desire for change — prices and cost of living, immigration and border, and wanting change from Biden. He has changed the likely electorate, so the race is currently tied in the Rust Belt and Southeast (423 sample). With the Hispanic vote far short of 2020 and earlier, the mountain states (Arizona and Nevada) look the hardest.
- But this is still Harris' race to win. Democrats are running well in the House battleground districts and Senate races. Harris' overall vote was stable from pre-convention, making gains with whites under 45 years & college women. Trump gained from the 3 percent RFK voters; 90 percent disapproved of Biden. Trump's base of voters became more engaged, while Harris' less. And Harris lost support and turnout with her own working class supporters, concentrated among Hispanics, white unmarried women, and working class women.
- This survey shows how readily these trends can be reversed and how much room to gain with Hispanic voters.

Key Findings - 2

- This race structure is unbelievably stable, with virtually no change in percent saying country headed in wrong direction and who is better on the list of 16 issues. Harris has gained on women's rights, and also who is for working people and not for the rich. But Trump's focused campaign has only shifted the likely electorate to be in an even darker mood.
- The reason I say this is Harris' race to win is because everything tested in this poll comes from Harris' speeches and ads. She has to be focused on the voters' top issues — above all; prices, the cost of living, and inflation — which is the animating issue in the Rust Belt and Southeast, and among white millennials, unmarried women, working class women, Blacks, and Hispanics, She has to focus on the changes she'll bring and contrast against Trump.
- Stop thinking Trump is hurting himself by the outrageous things he is saying about immigration. It has helped push up what is the top issue and raised his base's determination to vote. This race will change when the Harris campaign is as consumed with the cost of living and speaks about almost nothing else.

Key Findings - 3

- Harris focusing on prices and bringing change on her economic policies and contrast with Trump are likely to put Harris in a stronger position. It will change the electorate, motivate the Democrats' base, and win back white working class women, moderate Democrats, and independents.
- The forward message has to be about people seeing change. A plurality of Black voters say we are headed in the wrong direction, joined by 60 percent of Hispanics, white unmarried women, and millennials. They respond strongly to the tests here.
- Trump's strongest messages are "Trump standing up for you and bringing back Trump's prosperity" and "you being killed by high prices and low wages." His strongest policies are his proposed punitive tariffs and deporting many immigrants. Don't underestimate his current attack on transgender operations.
- Harris strongest message starts with her attack on Trump's sales tax and her policies to cut middle class taxes for 100 million paid for by taxing billionaires.

Key Findings - 4

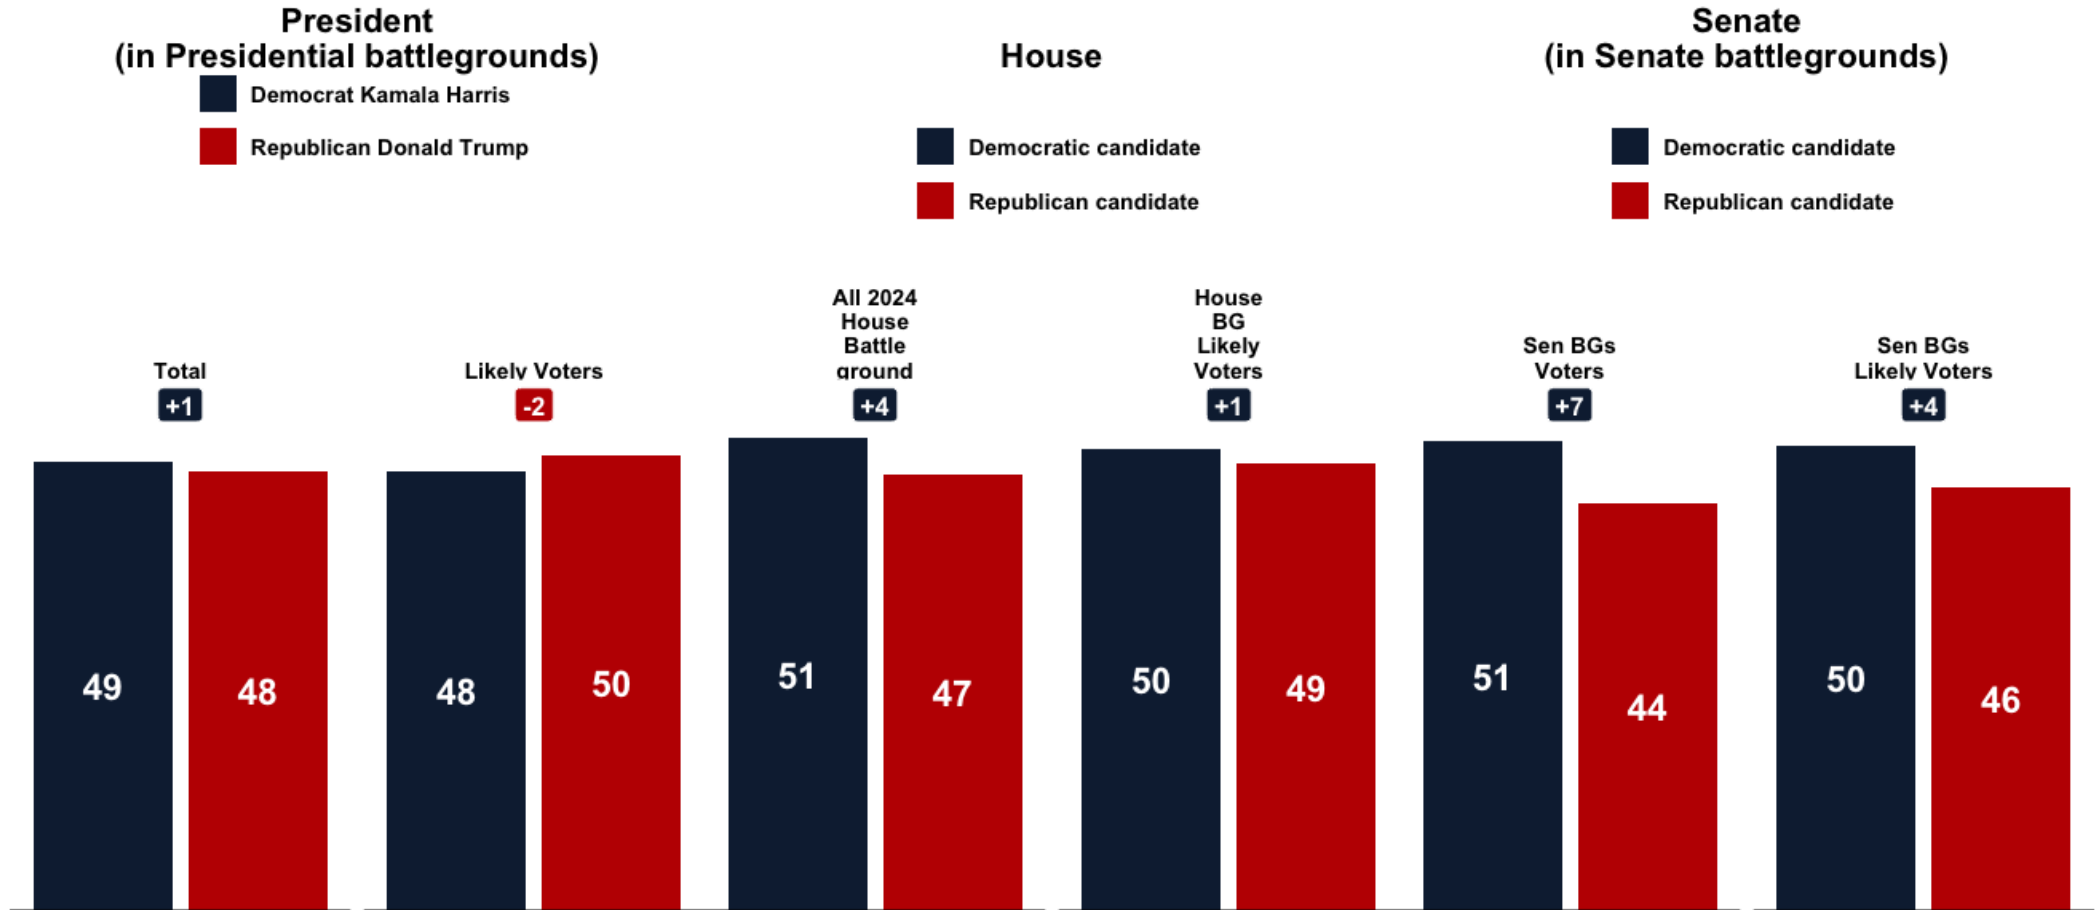

- Here is Harris' strongest message: "Donald Trump's economic plan is really a Trump Sales Tax on every purchase. It is a 20% tax on everyday goods American families need to get by. It is an extra \$4,000 each year for those families. His plan would increase inflation, making it harder for working families to afford basic necessities. Under my economic plan, we'll lower the cost of living by investing in American manufacturing, cutting taxes for the middle class, and making big corporations pay their fair share."
- Her strongest policy? "Will pass a middle-class tax cut that will benefit more than 100 million Americans paid for by raising taxes on billionaires. No one making below \$400,000 a year will see any tax increase." Almost half of voters and two-thirds of Black respondents choose the expanded permanent Child Tax Credit and \$6,000 help in first year.
- And finally, the campaign talking about Harris' immigrant mother and her prioritizing the Hispanic community who will help her win shifts the vote significantly.
- This really is an election that is Harris' to win.

Trump policies — full wording 1/2

Respondents were shown ten Trump policies and asked to select the four most important to them

- End inflation and make America affordable by implementing aggressive trade policies, including tariffs on Mexican-made products, block U.S. investments in China, reduce taxes across all economic classes, and lower costs.
- Implement the largest deportation operation in U.S. history, targeting undocumented immigrants, and possibly employing federal troops and the National Guard.
- Ban federal funding for gender-affirming care for minors, ban transgender athletes from competing based on gender identity, and support a bill defining gender as strictly male or female at birth.
- Plans to boost fossil fuel production by easing regulations on drilling and pipeline projects and reauthorizing drilling in places like Alaska's Arctic National Wildlife Refuge. He would also pull the U.S. out of the Paris Climate Agreement again.
- Cancel the electric vehicle mandate and cut regulations and bringing the automotive industry back to America to lower costs for vehicles.

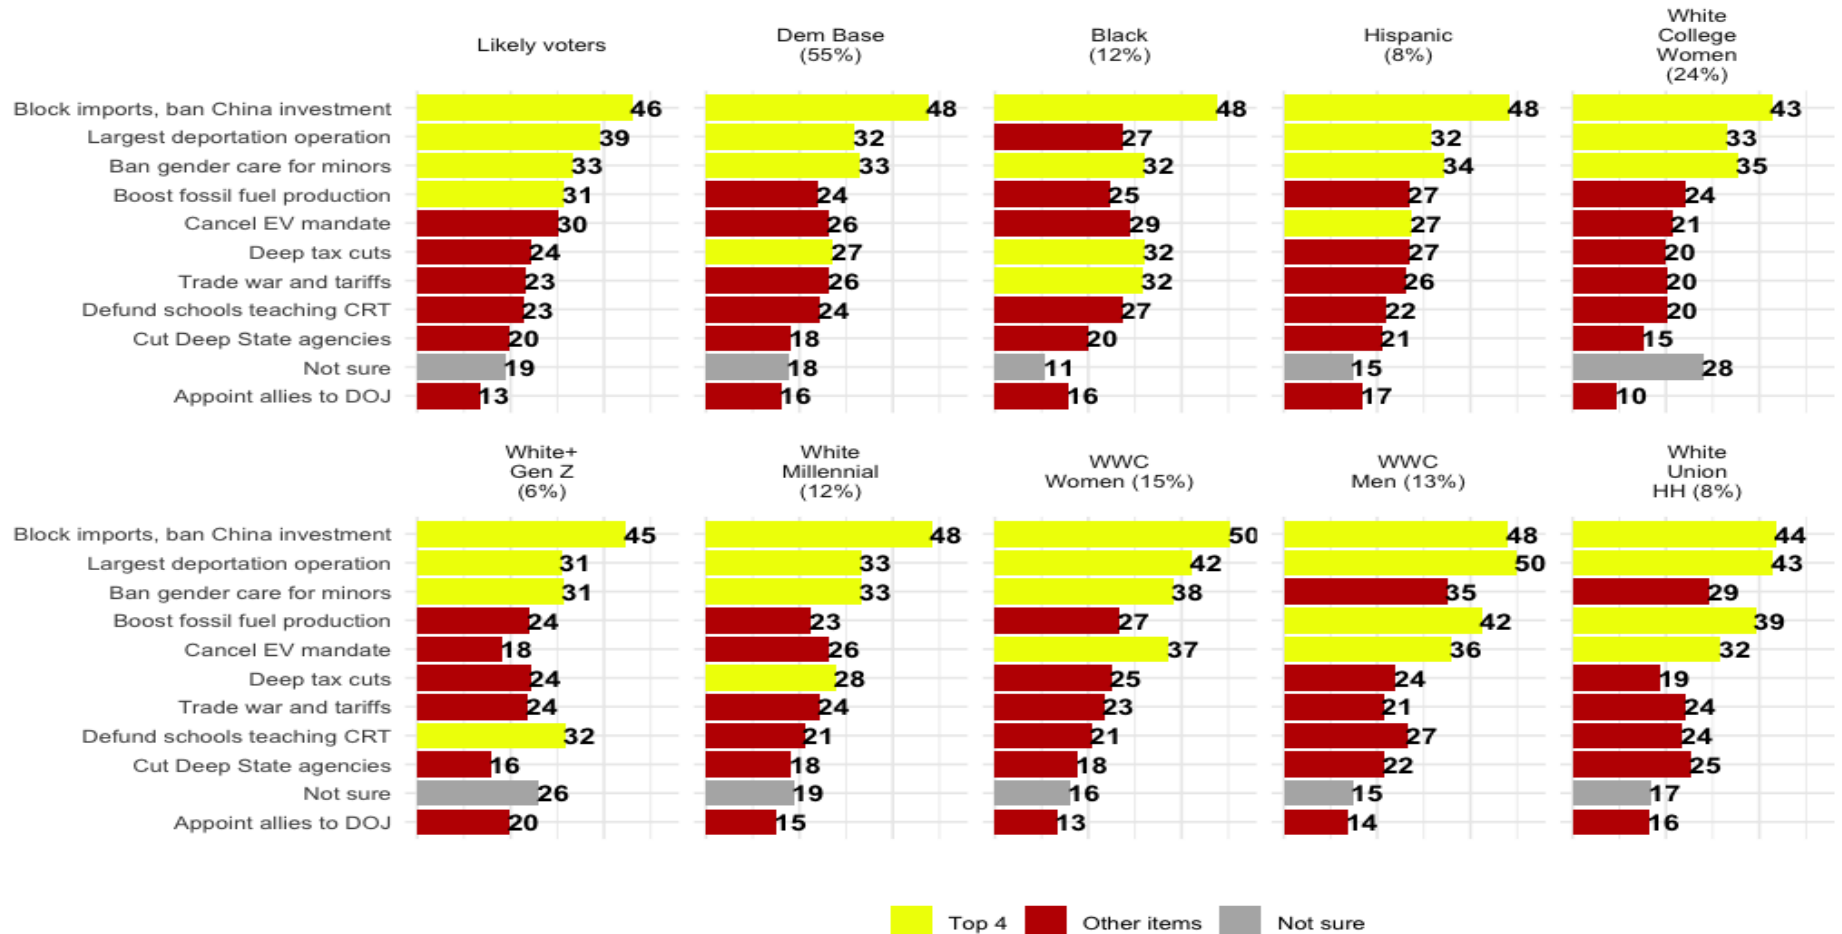

Trump policies — full wording 2/2

- He promises further deep tax cuts, including lowering the corporate tax rate from 21 to 15 percent for companies in the U.S. and eliminating taxes on tips for service workers.
- Other countries will pay us back for all we've done for the world, continuing his trade war strategy to protect American industries. He will impose tariffs on other countries to lower inflation and pay for our deficit.
- Cut federal funding for any school pushing critical race theory, radical gender ideology, as well as expand school choice and promote religious prayer in school.
- Reduce the influence of the "deep state" by firing federal employees and lessen the influence of civil service workers and federal agencies, like the Department of Education and the FBI.
- Reform the Justice Department, curbing its independence by appointing political allies, potentially to ensure it cannot be used against him in legal matters.

Most important Trump policies are blocking imports and China investment and large-scale deportation. White union households support the deportation

The Democrats base strong for his tough trade policies.

Trump's attack statements focus on economics, the border, the Deep State, and on Harris's role in these as Biden's VP

- **(Defend America)** We will defend America against all threats and protect America against all dangers. Trump brought manufacturing back to America, small businesses flourished, and he did what he promised by putting America first. Under Trump, prosperity was real — people's incomes were going up. Not only did he keep his promises, but the results are there to show. We will never give in, we will never give up, and we will never stop fighting for our country, our flag, and our freedom. There is no bulldozer strong enough to remove the legacy that he has built. I will never stop fighting for you.
- **(Expenses)** Everyday expenses have skyrocketed by double digits since Biden and Harris took office. Since then, the burden of record-high inflation has continued to push the limits for people across the country. The number of Americans living paycheck to paycheck has jumped to 61%. Domestic policy, economic policy, immigration policy, foreign policy, energy policy, and law and order — all of it is downright dangerous. Americans are hurting, but we have to go forward now. The country needs a win, and there's only one person who can make that vision a reality: Donald James Trump.

Trump's message statements - 2/3

Trump's attack statements particularly draw attention to key weaknesses of Biden administration

- **(Tariffs)** We will have tariffs on other countries, and after 75 years, they're finally going to pay us back for everything we've done for the world. The tariffs will be substantial, and I've already taken in billions from China. When I was president, we had tariffs and no inflation. Now, Biden and Harris have given us the worst inflation in history. Countries like China are paying, not us. I'll do it again, bigger this time, bringing in hundreds of billions of dollars while protecting American jobs and industries. It's time they pay up.
- **(Socialized Medicine)** When asked if their government plan would provide healthcare coverage for undocumented immigrants, all the Democrats raised their hand, even Kamala. They're all the same—these Democrats support giving illegal immigrants free health care at our expense, spending taxpayer dollars covering illegal immigrants, calling for socialized medicine, destroying healthcare as we know it, and putting illegal immigrants before hardworking Americans. The Democrats are radical, reckless socialists; they're all the same. I'm Donald Trump, and I approve this message.

Trump's message statements - 3/3

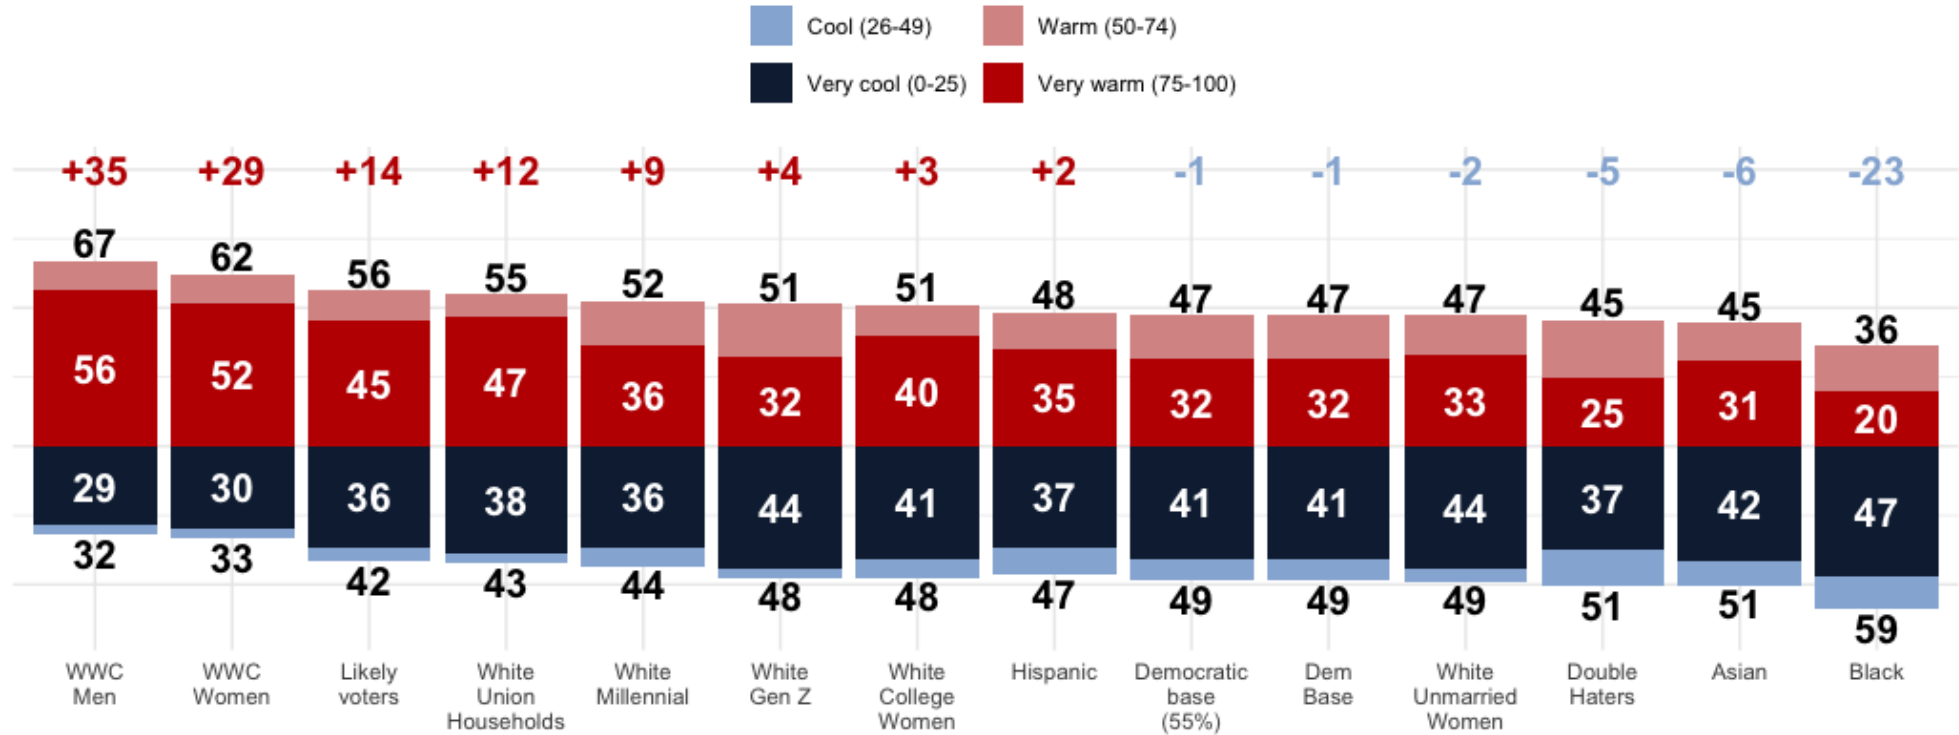

Trump's attack on immigrants also covers burden of immigrants on social services

- **(Change from Biden)** Do you know this is the Biden-Harris Administration? Are you aware that this is the Biden-Harris Administration and she is indeed the Vice President? Not only does she inherit these numbers and contribute to them, but she was also the tie breaking vote on \$3 trillion of spending bills, making her almost personally responsible for the massive inflation you see on that chart. Are you aware that this is the Biden-Harris Administration, and she is indeed the Vice President? Only voting for Donald Trump brings change from Biden.
- **(Deep State)** First, I will immediately reissue my 2020 executive order restoring the President's authority to remove rogue bureaucrats, and I will wield that power very aggressively. The departments and agencies that have been weaponized will be completely overhauled so that faceless bureaucrats will never again be able to target and persecute conservatives, Christians, or the left's political enemies. We will get America back to security and patriotism. We will release the horribly and unfairly treated January 6th hostages. Under my leadership, justice will prevail for all Americans. This is my plan to dismantle the deep state and reclaim our democracy from Washington corruption once and for all.

Harris policies — full wording 1/2

Respondents were shown ten Biden/Harris policies and asked to select the four most important to them

- Implement the \$1.2 trillion the bi-partisan infrastructure law to create jobs and spark economic growth through major improvements in transportation, clean energy, and broadband access.
- The new law passed by Democrats capped out-of-pocket drug costs at \$2000, reduced insulin to \$35 a month, and now she will be make Medicare negotiate lower prescription prices for the first time.
- Implement the historic law to fight climate change. That reduced what people spend on energy and reduces carbon pollution. It gives big tax credits to help families make their homes energy efficient and install solar panels. It saves the average family \$1800.
- She will combat anti-competitive practices and corporate greed by implementing a the first-ever federal ban on price gouging for food and groceries.
- Will make permanent the Increased the Child Tax Credit received monthly that provided tax relief for poor, working, and middle-class families with children. It was the biggest tax cut for working families ever and it cut Black child poverty in half.

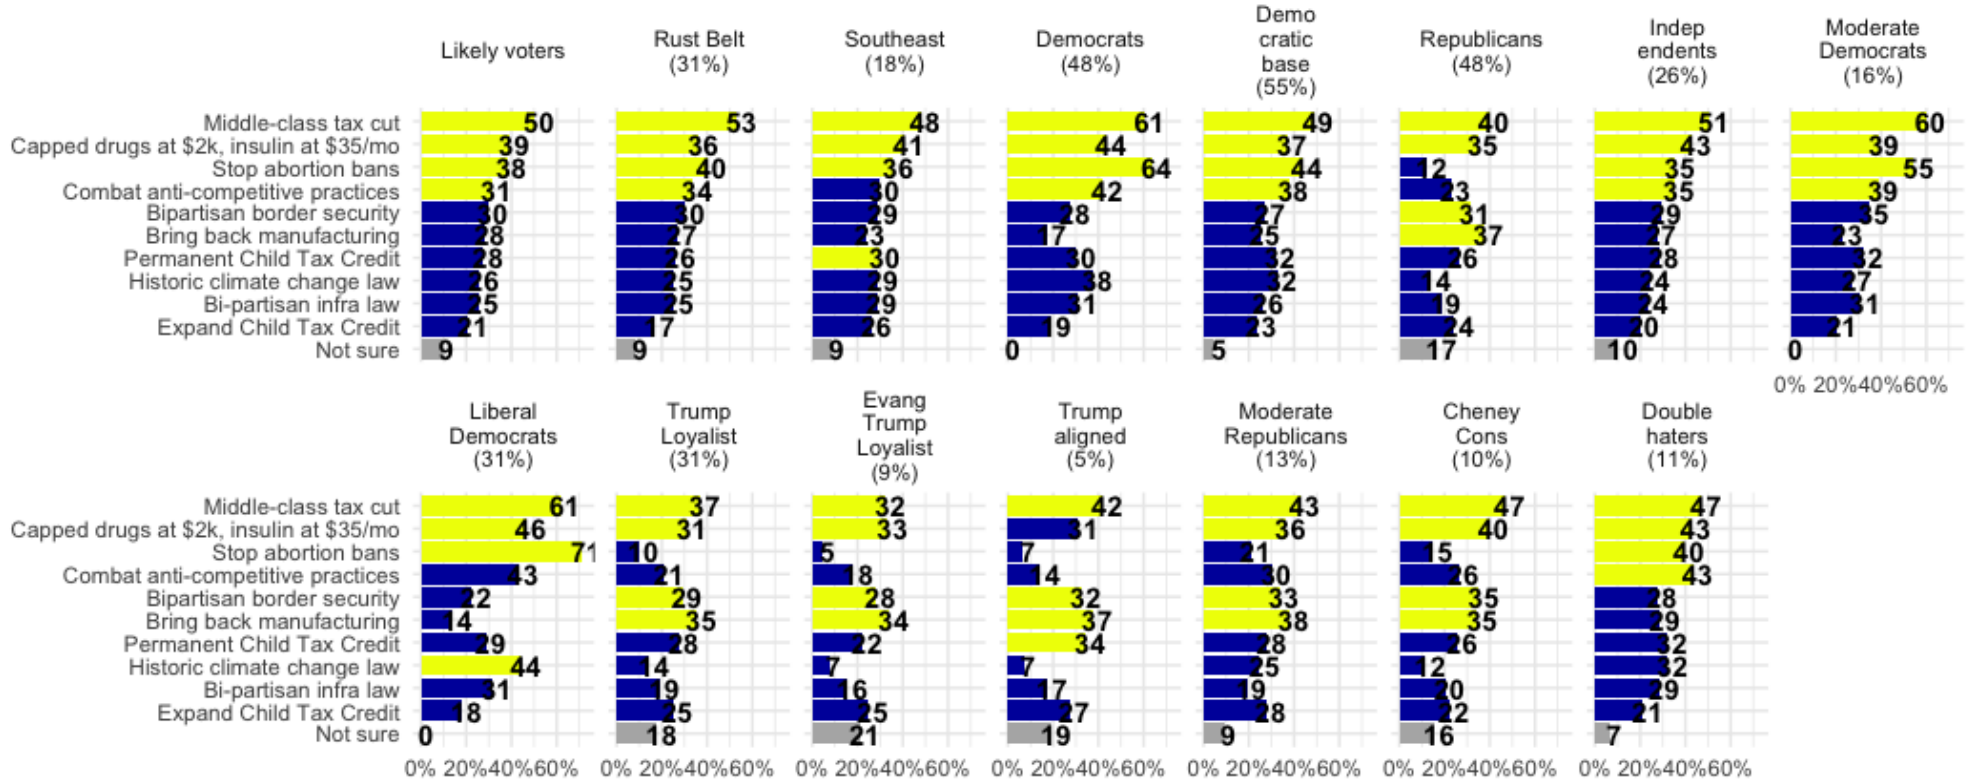

Harris policies — full wording 2/2

- Will expand the Child Tax Credit to \$6,000 for newborns to help families deal with the huge expenses of a new child.
- Will pass a middle-class tax cut that will benefit more than 100 million Americans paid for by raising taxes on billionaire. No one making below \$400,000 a year will see any tax increase.
- She will stop Republican efforts to deny women make decisions about their own bodies, keeping Trump from signing a national abortion ban, and restoring Roe v. Wade as the law of the land.
- Bringing manufacturing back with \$13 billion new investment in auto industry. Computer Chips now being built here. Building in America by forcing federal government to buy in America.
- Will pass the bipartisan border security bill that creates adds 1,500 border patrol agents, fentanyl inspection machines, 4,300 asylum officers, and 100 new judges. It gives the power to close the border, endorsed by the Border Patrol Union. And it gives Dreamers born here a path to citizenship.

Project 2025 full attack statements

- Project 2025 aims to roll back environmental regulations by cutting climate protections and programs, replacing climate advisors with fossil fuel lobbyists, and deregulating big corporations in the oil industry, removing regulations that help protect the environment.
- Trump promises to use policies laid out in Project 2025 to dismantle the Affordable Care Act, cut Social Security and Medicare, and rip away protections for preexisting health conditions. It'll allow drug companies to jack up the prices.
- Project 2025 would abolish the Department of Education, cut school lunch programs, and instead utilize school vouchers and charter schools at the expense of public education, and Trump would implement book bans nationwide.
- The policies in Project 2025 would put immigrants in mass detention camps, ripping them away from their homes, their schools, because Trump calls them 'animals' who 'poison the blood' of America.

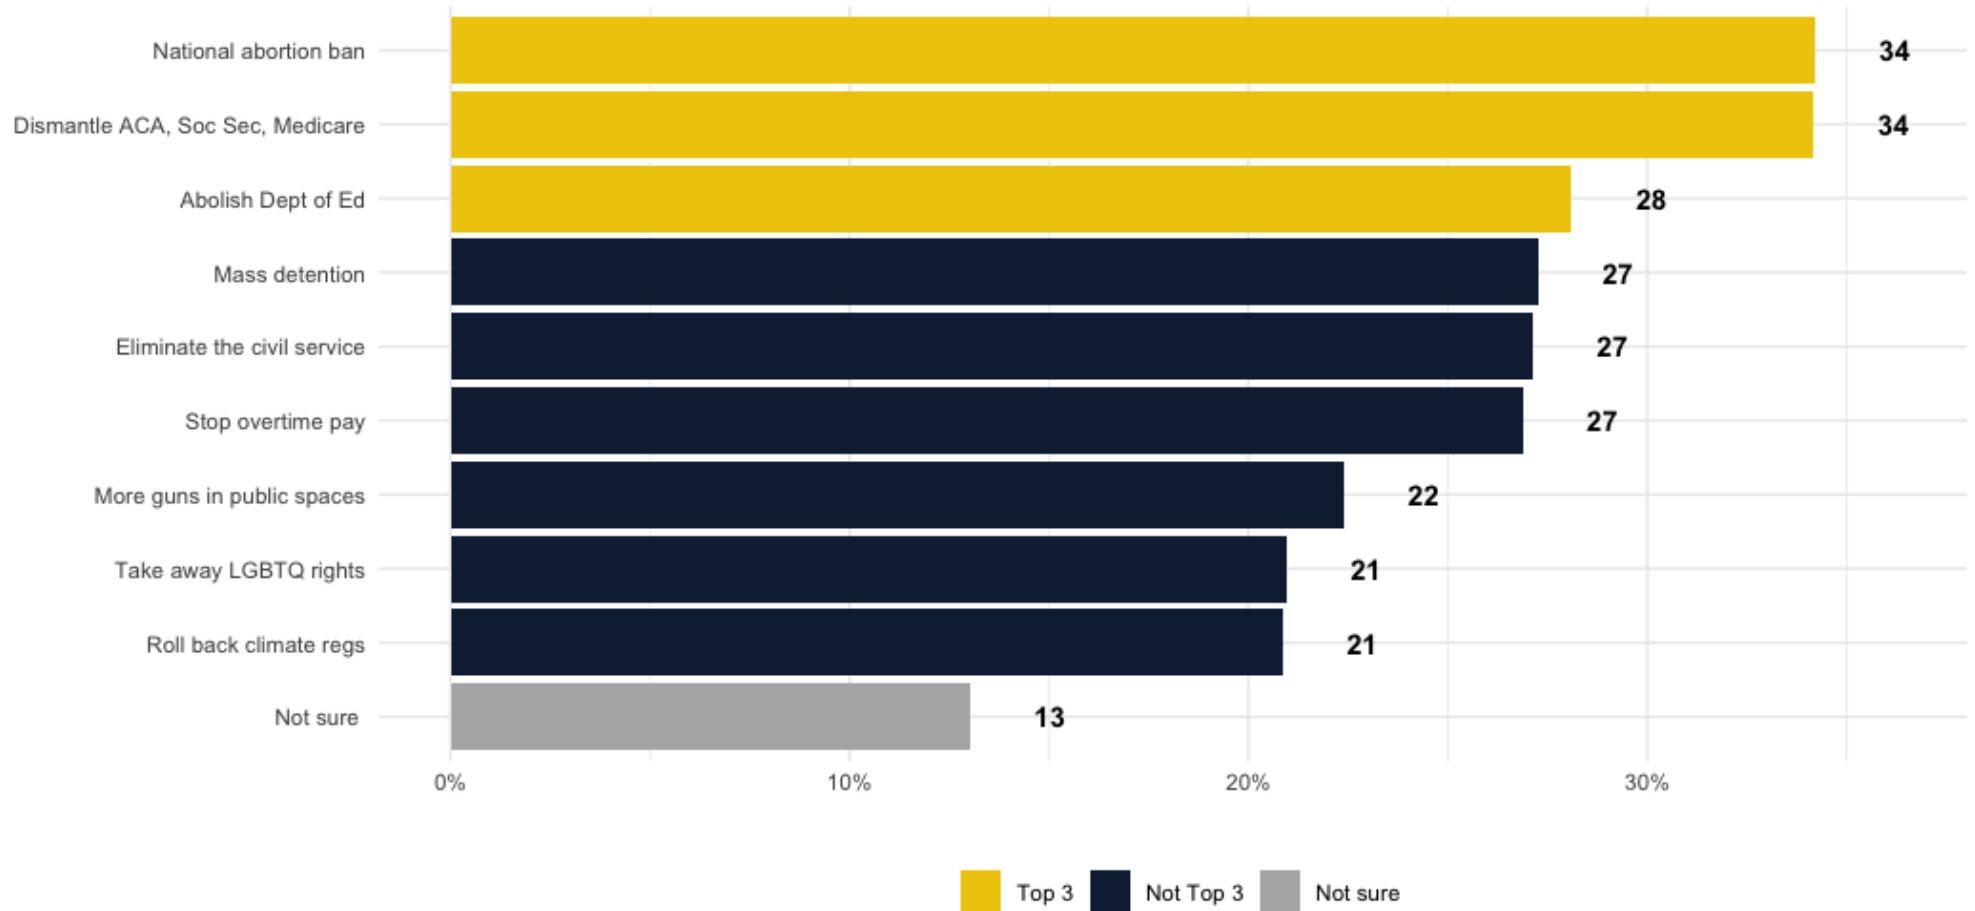

Project 2025 full attack statements – continued

- His project will allow employers to stop paying overtime for hourly workers but give tax handouts to the ultra-wealthy and big corporations. The tax cut he's proposed is for \$5 trillion over the next 10 years, which would widen income inequality.
- Trump will eliminate the civil service. They would use Project 2025 to purge the government of thousands of civil servants and replace them with unqualified MAGA loyalists who take a loyalty oath to Trump beforehand.
- Trump's Project 2025 would enact a national abortion ban, remove mentions of "abortion" and "reproductive health" from agency materials, would reverse the FDA's approval of abortion medication, and will criminalize the shipping of abortion medications.
- The proposed policies in Project 2025 would go after marriage equality, repeal anti-discrimination protections for LGBTQ+ students, reinstate the transgender military ban and expel transgender service members.
- Trump's Project 2025 advocates for more guns in public spaces and supports arming teachers in schools. The plan does nothing to address gun violence and plays to the hands of the gun lobby.

- **(Trump Sales Tax)** Donald Trump's economic plan is really a Trump Sales Tax on every purchase. It is a 20% tax on everyday goods American families need to get by. It is an extra \$4,000 each year for those families. His plan would increase inflation, making it harder for working families to afford basic necessities. - **(Not Going Back)** We're not going back; instead, we must focus on our shared values to chart a new course forward. My vision involves creating an opportunity economy by investing in small businesses, supporting new families, and reducing the cost of living. I will uphold America's standing globally, ensure respect for our military, and protect fundamental rights, including women's autonomy. With my background as a prosecutor, attorney general, senator, and vice president, I've always served the people without partisan bias. As president, I'll prioritize the needs of all Americans and invest in building our country's future.

power and
corporate greed

- **(Trump's Former Friends)** Here is what those who worked for Trump said. Vice President Pence said, "anyone who puts them over the Constitution should never be President of the United States. It should come as no surprise that I will not be endorsing Donald Trump this year. Donald Trump will cause a lot of damage. The only thing he cares about is Donald Trump." His top general said, "We don't take an oath to a king, or a queen. Or a tyrant or a dictator." And we don't take an oath to a wannabe dictator. Donald Trump is a danger to our troops and our Democracy. I will secure our democracy for you.
- **(New Way Forward)** We are fighting for a New Way Forward that protects our fundamental freedoms, strengthens our democracy, and ensures every person has the opportunity to not just get by, but to get ahead. As a prosecutor, Attorney General, Senator, and now Vice President of the United States, I always stood up for the people against predators, scammers, and powerful interests. I promise to be a president for all Americans, a president who unites us around our highest aspirations, and a president who always fights for the American people. From the courthouse to the White House, that has been my life's work.

- **(Fight Price Gouging)** We all know costs are too high, but while corporations are gouging families, Trump is focused on giving them tax cuts. She is focused on you. Building up the middle class will be a defining goal of my presidency. She'll make groceries more affordable by cracking down on price gouging, and she'll cut housing costs by taking on corporate speculators. Middle-class families build America, and we need a leader who has their back. I'm Kamala Harris, and I approve this message.
- **(Law Enforcement)** After decades in law enforcement, I know the importance of safety and security, especially at our border. Last year, Joe and I brought together Democrats and conservative Republicans to write the strongest border bill in decades. The border patrol endorsed it. But Donald Trump believes a border deal would hurt his campaign, so he ordered his allies in Congress to kill the deal. I refuse to play politics with our security, and here is my pledge to you. As president, I will bring back the bipartisan border security bill that he killed, and I will sign it into law. I know — I know we can live up to our proud heritage as a nation of immigrants and reform our broken immigration system. We can create an earned pathway to citizenship and secure our border.

Donald Trump's economic plan is really a Trump Sales Tax on every purchase. It is a 20% tax on everyday goods American families need to get by. It is an extra \$4,000 each year for those families. His plan would increase inflation, making it harder for working families to afford basic necessities. Under my economic plan, we'll lower the cost of living by investing in American manufacturing, cutting taxes for the middle class, and making big corporations pay their fair share.

Not going back with new course helping families with cost of living is nearly as strong

New course has +10 net warmer among likely, though less intense.

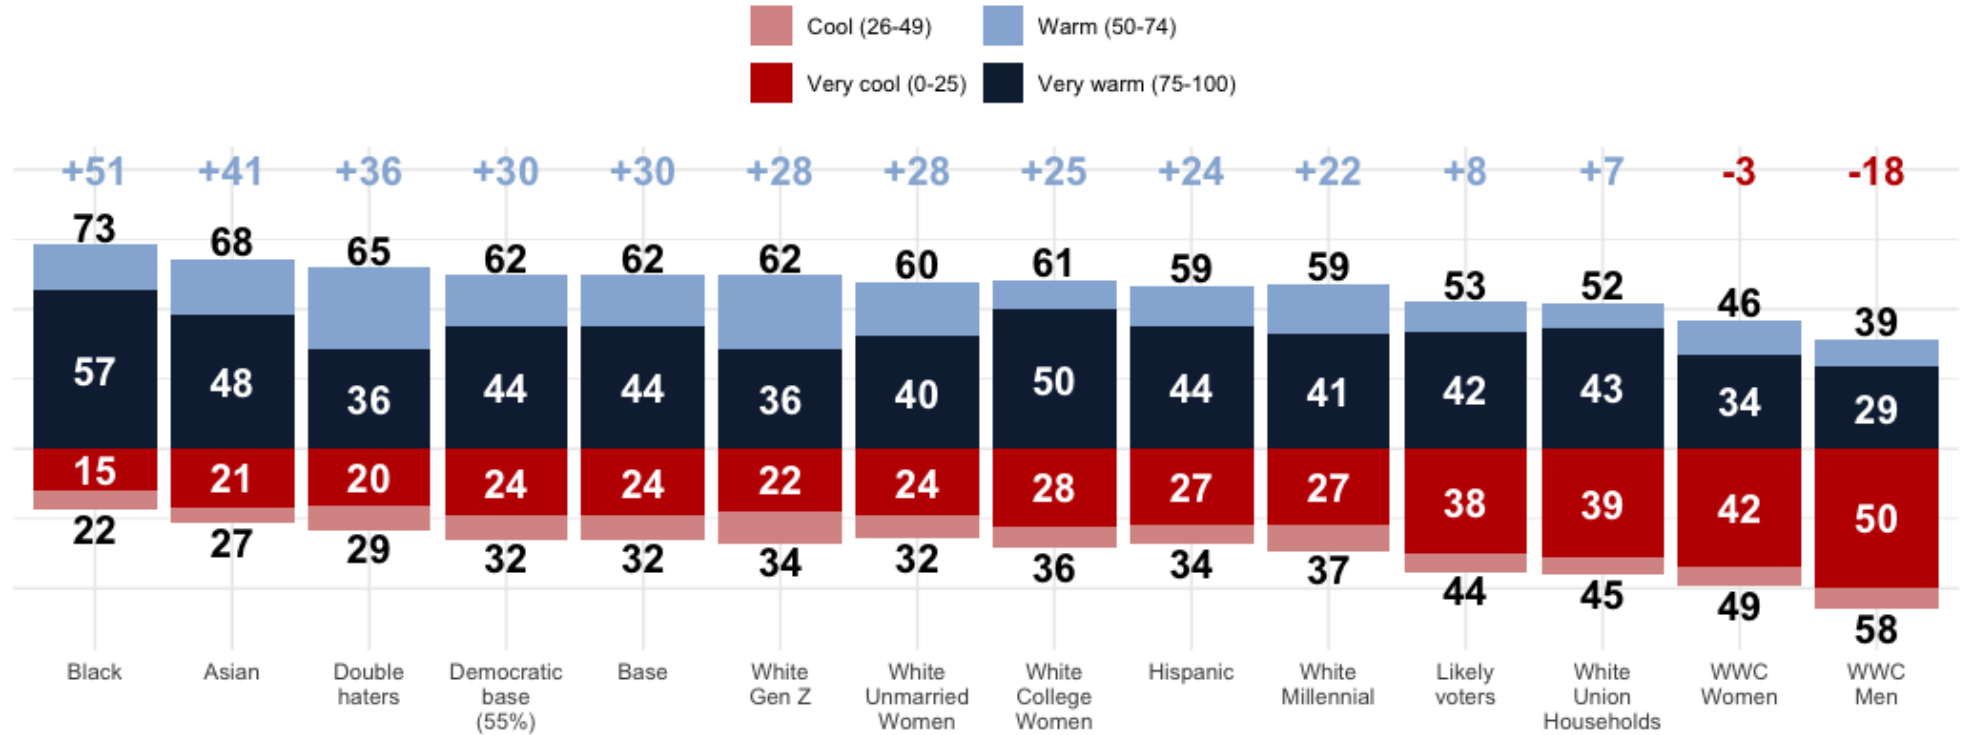

We're not going back; instead, we must focus on our shared values to chart a new course forward. My vision involves creating an opportunity economy by investing in small businesses, supporting new families, and reducing the cost of living. I will uphold America's standing globally, ensure respect for our military, and protect fundamental rights, including women's autonomy. With my background as a prosecutor, attorney general, senator, and vice president, I've always served the people without partisan bias. As president, I'll prioritize the needs of all Americans and invest in building our country's future.

The Republicans who attack him less strong, with little intensity

Republicans who know him has +8 with likely

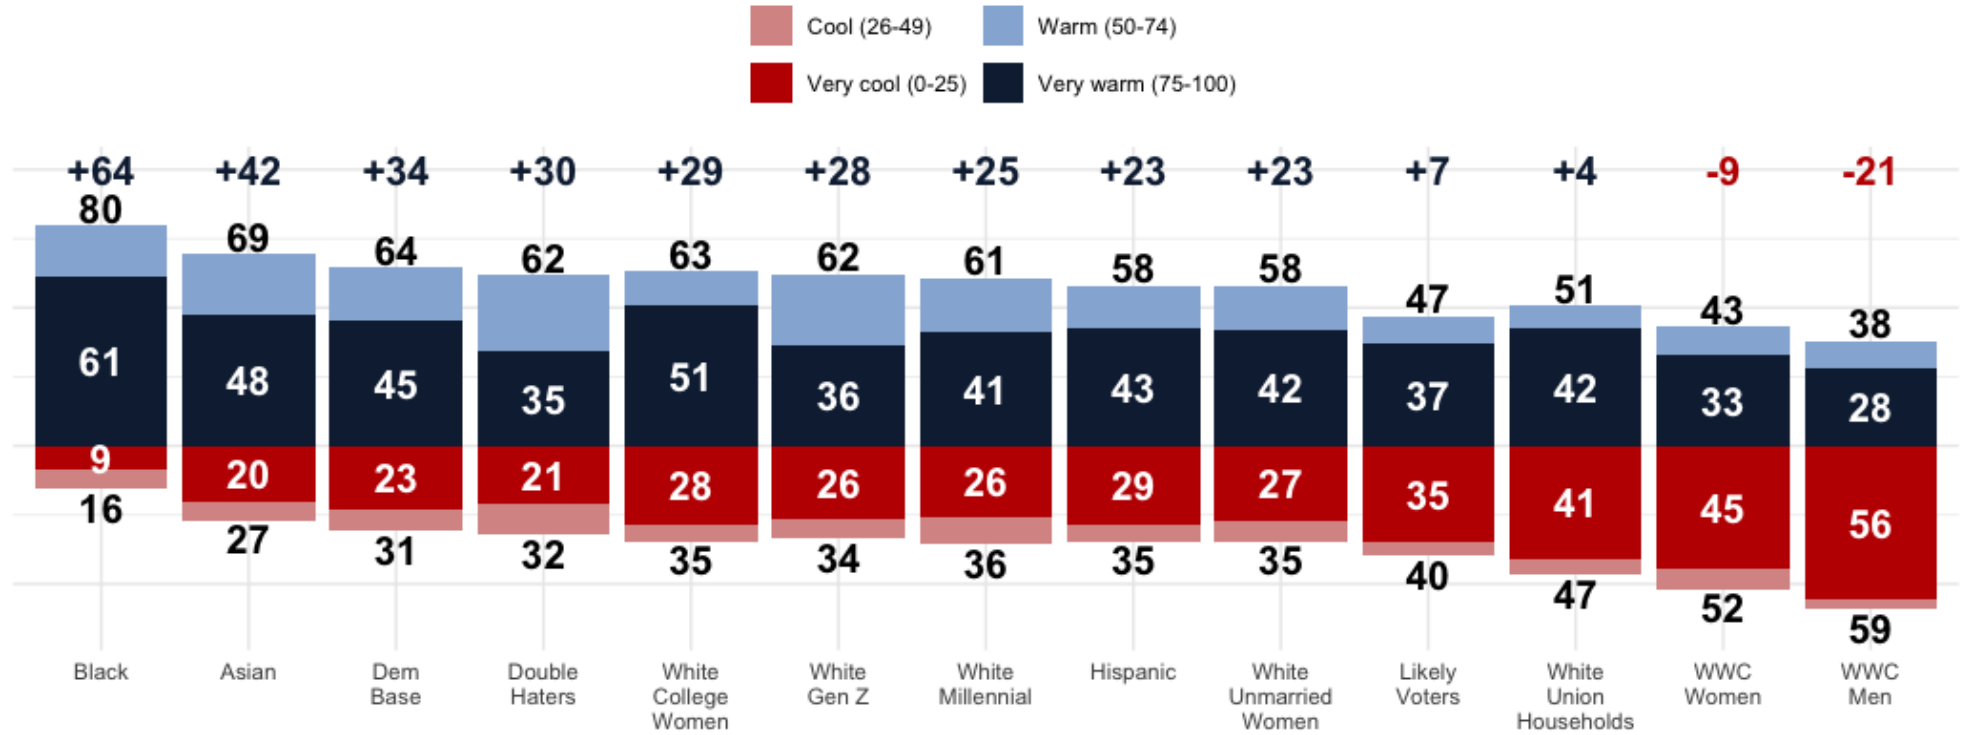

Here is what those who worked for Trump said. Vice President Pence said, "anyone who puts them over the Constitution should never be President of the United States. It should come as no surprise that I will not be endorsing Donald Trump this year. Donald Trump will cause a lot of damage. The only thing he cares about is Donald Trump." His top general said, "We don't take an oath to a king, or a queen. Or a tyrant or a dictator." And we don't take an oath to a wannabe dictator. Donald Trump is a danger to our troops and our Democracy. I will secure our democracy for you.

New Way Forward with freedom and democracy weaker and highest aspirations not as strong

+7 with likely voters

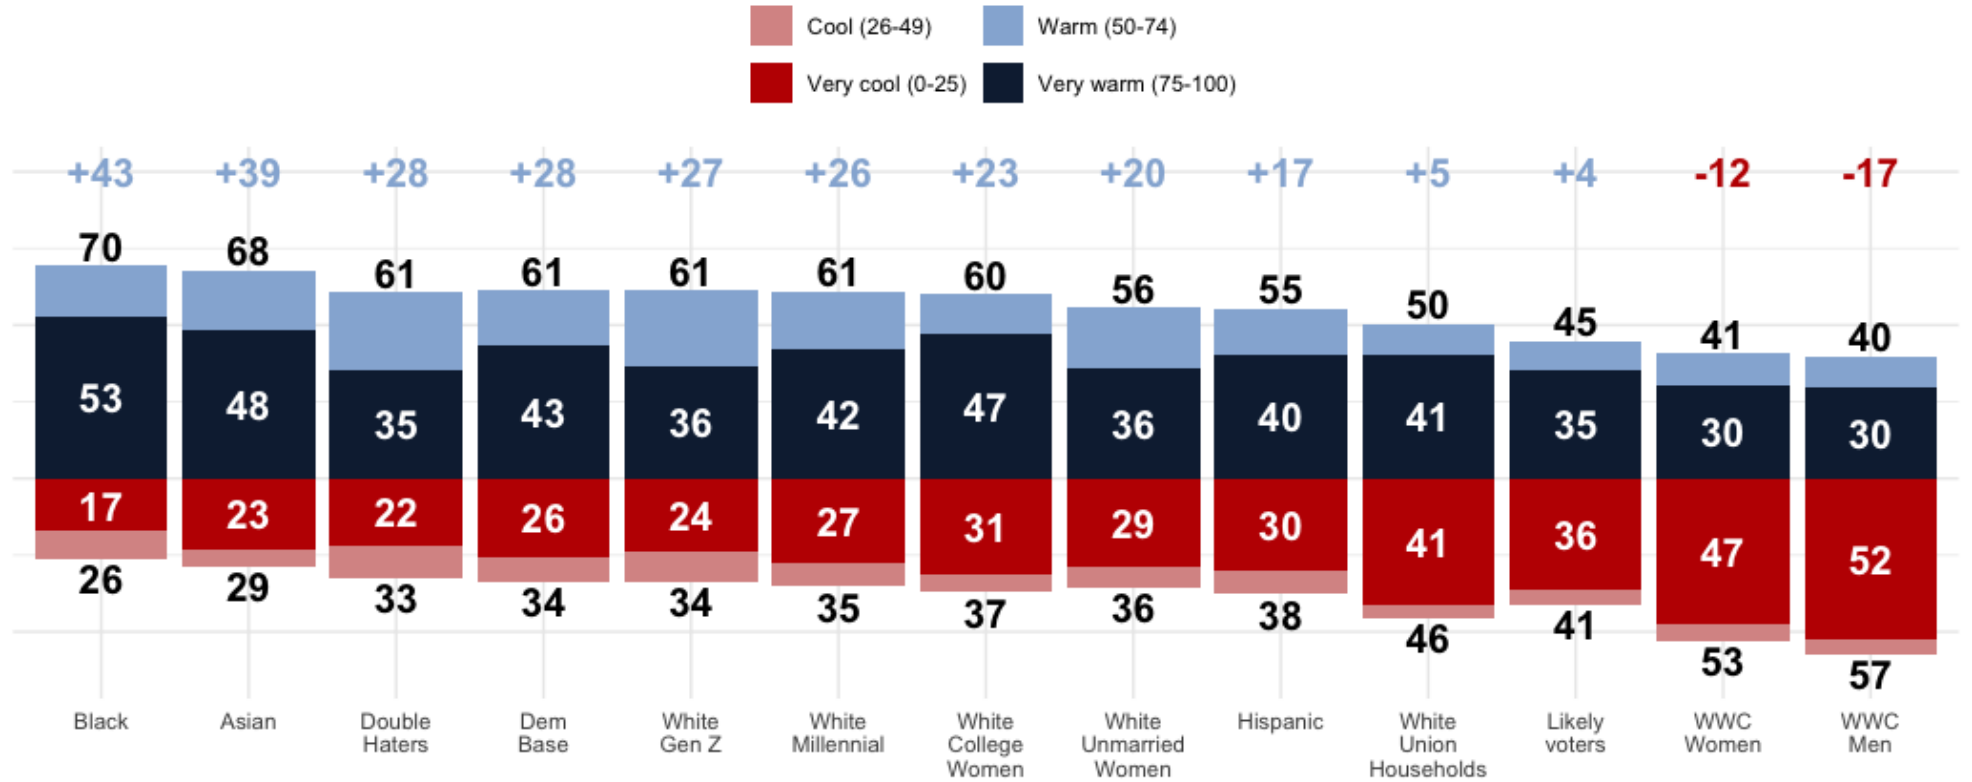

We are fighting for a New Way Forward that protects our fundamental freedoms, strengthens our democracy, and ensures every person has the opportunity to not just get by, but to get ahead. As a prosecutor, Attorney General, Senator, and now Vice President of the United States, I always stood up for the people against predators, scammers, and powerful interests. I promise to be a president for all Americans, a president who unites us around our highest aspirations, and a president who always fights for the American people. From the courthouse to the White House, that has been my life's work.

The ad that said, “We all know prices too high, while corporations gouging & middle class will be the mission” didn’t test that well.

Did voters say, if we knew, why didn't you do something?

We all know costs are too high, but while corporations are gouging families, Trump is focused on giving them tax cuts. She is focused on you. Building up the middle class will be a defining goal of my presidency. She'll make groceries more affordable by cracking down on price gouging, and she'll cut housing costs by taking on corporate speculators. Middle-class families build America, and we need a leader who has their back. I'm Kamala Harris, and I approve this message.

- **(Harris immigration message) (Heard by all)** When you're raised by an immigrant mother, you learn what is possible with determination. And determination is how Kamala Harris went from working at McDonald's to prosecutor, State Attorney General, U.S. Senator, and our Vice President in only one generation. In that same determination she always defended us. As a state prosecutor, she protected us from violent criminals. As our president, determination is how she'll stop the corporations who gouge our families on rent and groceries. And she won't stop fighting until we win. Because she knows with determination, when we fight, we win.
- **(Priority message) (Heard by half)** Hispanics hard work and personal responsibility played such a big role in building our nation. Your hard work built our industries that made America great. Too many leaders have taken your support for granted. Not me. Your support was so important to me in California and your issues were number one. I want you to know that I will work hard to win your votes and need your votes to win.
