Q.101 (SPLIT C) Now you will see some things that leaders of the Democrats and Republicans are saying about the country. Which one do you find yourself agreeing with more?

(POLICE/CRIME) Democrats say we are fighting crime. Preventing crime and protecting our communities is an obligation we hold dear. Democrats have declared gun violence as a public health crisis and allocated $3.9 billion for state and local law enforcement to make our cities safer. More criminals must be prosecuted. Ban assault weapons. And we need more police. It is a tough job, and they should be respected. We should fund, not defund the police. At the same time, our plan includes urgent reforms, including better training and accountability to prevent excessive use of force and racial profiling that singles out Blacks or Latinos. Fighting crime, gun violence, and for safe communities is our top priority.

OR

(CRIME/DEFUND) Republicans say Joe Biden and Democrats' soft-on-crime policies have destroyed American cities, emboldened criminals, and put Americans in harm's way. Democrats' attacks on the 2nd Amendment will not combat the crime wave they created. Violent crime has spiked across the country, with fourteen major Democrat-run cities setting all-time high homicide records. Since coming into office, Biden has not stood with law enforcement, but rather surrounded himself with radical defund the police supporters.

Joe Biden promised his inflation would be temporary and that we wouldn't have to worry about it. Months later, it's worse; he claims his agenda won't add to inflation, but Americans know better. The Democrats' out of control spending and bad decisions caused this inflation and there is no end in sight. Working class families see prices rising at the pumps, grocery stores, and all around. The Democrats only see fellow liberal elites who don't know what it's like to pay $5 a gallon. Republicans will stop the out-of-control government spending that drives inflation here. They will cut gas taxes. And they will allow our energy companies to produce American oil and drive down prices.

Corporate profits are at a 70-year high, yet corporations are raising their prices. They are not raising their prices because of the increasing costs. They're using the cover of inflation to increase their profits. They're doing so because they face little competition. Most American workers haven't seen a real wage increase in 40 years. Income and wealth are being distributed up to CEOs and shareholders, while working people are living paycheck to paycheck. And they are now paying a lower tax rate than working people. Republican leaders in the Congress won't stop price gouging and let working people pay higher taxes. Democrats say enough. They are raising taxes on big corporations and billionaires. And they are fighting against unlimited secret campaign funds.

Republicans say our thoughts and prayers after massacres of children in schools, year after year, and will do nothing that puts them at odds with the NRA and gun industry lobbyists. 20 babies at Sandy Hook and 19 children at Rodd Elementary. Now, the Supreme Court is stopping states and cities from regulating handguns. Democrats say enough. The House Democrats passed laws, including safe storage, red flag laws, requiring background checks for ghost guns, and raised the age to purchase assault weapons from 18 to 21, but Republicans would not consider comprehensive background checks or raising the age. With control of Congress and a 52 seat majority in the Senate, we will ban assault weapons, high-capacity magazines, and begin comprehensive background checks. It will allow cities and states to fully regulate guns.

Donald Trump's three Supreme Court justices ended the constitutional right to privacy. That decision set women's rights back by 50 years. It was a blow to women's equality. Abortion will now become illegal in perhaps a majority of states. Most don't allow exceptions for rape or incest. We will see the arrests of doctors and women seeking to end a pregnancy. And now Senator McConnell and Vice President Pence say they will enact a national ban on abortion. Democrats will move to restore the right to privacy and women's equality. No more filibuster. They will use their majority in Congress to restore Roe v. Wade rules for having a legal abortion.

Donald Trump's three Supreme Court justices and a backward majority ended the Environmental Protection Agency's efforts to phase-out coal-fired power plants with their huge carbon emissions. It was a huge setback for the federal governments' efforts to prevent climate change. As wildfires, droughts, and extreme weather become commonplace, America's hands will be tied during this climate crisis. Democrats will pass a new Climate Crisis Law that allows the EPA and the federal government to act boldly to address climate change. If Republicans control Congress, America will no longer do anything further to address climate change.

The decision by the Supreme Court to stop the Environmental Protection Agency from regulating greenhouse emissions is welcome news and further proves that the EPA overstepped its authority by imposing enormously burdensome regulations on states to reconfigure our electric grid despite Congress's rejection. Q.115 And, finally, here are some things that leading Democrats and Republicans are saying about the country. Which one do you agree with more?

(DEMOCRATIC MESSAGE) Democrats say people are living paycheck to paycheck and working people haven't seen a real pay increase in years. Those in Washington don't get it. The big corporations, billionaires, oil companies, big tech monopolies and their lobbyists are calling the shots. Democrats gave tax relief to the poor, working families, and the middle class, reduced health care premiums on exchanges, and are negotiating lower prescription drug costs. With inflation killing people, they are going after the monopolies and price gouging. Republicans get their money from big oil and the drug companies, and they oppose tax relief for working people and raising taxes on big corporations. Democrats are working for safe communities where workers get a break, and we grow the middle class again.

OR

(TRUMP WORLD) Republicans say America has never been more at risk for those who made America Great. Crime in our country is escalating. People are pouring through our borders totally unchecked. We must act to save America and define the future of our beloved country. We take pride in our country, we teach the truth about our history, not canceling our history. We believe in the men and women of law enforcement. We trust people and families to make their own choices and they have the right to be able to make their voices heard.
