(IMMIGRATION) Under Biden, the southern border has been abolished and millions of illegal aliens have been released into our communities. They are coming in from mental institutions and prisons that are being emptied. Democrats voted to defund border security, end border wall construction, and support sanctuary cities.	47	48	51	43	43	47
(CRIME) They are defunding the police, while hundreds of officers across the state have left their jobs. You can take the five worst Presidents in American History and put them together and they would not have done the damage that Joe Biden has done to our nation in just a few short years. Thanks to Joe Biden's socialist spending calamity, American families are being decimated by the worst inflation in half a century. Real wages have been falling 24 months in a row. In other words, under Biden workers have gotten a pay cut each and every month for two straight years. I will take us back to strong economy we had when I was President.

We have surrendered our energy independence, just like we surrendered in Afghanistan. Under my leadership, we had the most secure border in history by far. We've never had a border like this. First, I will immediately reissue my 2020 executive order restoring the President's authority to remove rogue bureaucrats, and I will wield that power very aggressively. The departments and agencies that have been weaponized will be completely overhauled so that faceless bureaucrats will never again be able to target and persecute conservatives, Christians, or the left's political enemies. When I am elected, we'll stand up to crazy Nancy Pelosi. She is against building a wall at our border, even though she has a wall around her house which obviously didn't do a very good job. How is her husband doing? We will immediately stop all thefts. If you rob a store, you can fully expect to be shot as you are leaving that store. I came to office to change the economic direction of this country, to get rid of trickle-down economics for everyone. It's called Bidenomics. I'm proudest that it's working everywhere, not just on the coasts and big cities. Factories are being built, and jobs are being created. Over 13 million new jobs have been created since I took office, more jobs than any president has ever created in their first two years. Nearly 800,000 manufacturing jobs. Inflation is less than half of what it was a year ago. And I backed the unions that just won higher wages from the auto companies.

The Inflation Reduction Act is cutting costs for working families like yours. Cutting the price of insulin to $35 a month for seniors. Cutting the cost of prescriptions by making Medicare negotiate lower drug prices. And cutting back on our dependence on foreign oil by investing in American clean energy instead. So we can cut more ribbons on factories and manufacturing floors and cut more good-paying checks for American workers. The Biden Administration's Inflation Reduction Act; it's here to save you money, no matter how you cut it.

Economic power is increasingly concentrated in the hands of big banks and corporations. President Biden's agenda to shift power away from corporate giants and corporate executives is making a difference. He passed a minimum tax that big corporations must pay. He's cracked down on executives and given working people more power to shape our economy. President Biden is taking real steps to keep the American dream within reach and fostering a more equal and inclusive society for all of us.

More workers are demanding a greater share of the profits and seat at the table. From Hollywood writers to American autoworkers, working people have more power than ever to join together through their unions to get heard. They've won historic wage increases and their voice is shaping their industries. They showed courage to go on strike, and President Biden was the first President in history to join them on a strike line. His policies have given workers more power and historic contracts and the chance to win rising wages. President Biden's economic agenda is starting to make a difference for all of us.

For too long, big oil companies have bought off politicians so they can get away with ripping us off. That's changing, now. Joe Biden passed a plan to jumpstart clean energy production in America. It's creating good jobs that can't be outsourced and will lower energy costs. $1800, that's how much a new report says the Inflation Reduction Act could save the average American family just on energy costs.

Joe Biden and the Democrats worked to benefit the middle class. We decreased prescription drug costs, invested in American Infrastructure, tackled climate change, and prioritized building things in America. We dropped unemployment to the lowest level in the last 50 years. Our child tax credit cut poverty in half. But this election is a choice for the future. We will make the biggest corporations pay taxes and pass the Child Tax Credit again. We will protect your right to a legal abortion, while they will bar it. And we'll protect Medicare and Social Security from Republicans who want to cut them drastically. You can count on us fighting for blue-collar middle class and higher-paid American jobs.
