Climate Statement 1

On the following pages are some pairs of statements. For each, please indicate whether the FIRST statement or the SECOND statement comes closer to your views, even if neither is exactly right. 1. Climate change is a threat and we need major action to combat it. 2. The threat of climate change is exaggerated and the high cost of fixing it may not be worth it.

Climate Statement 2

On the following pages are some pairs of statements. For each, please indicate whether the FIRST statement or the SECOND statement comes closer to your views, even if neither is exactly right.1. The U.S. should not have to bear the heavy cost of addressing climate change if the world's largest polluters are unwilling to make similar commitments.2. The U.S. should lead on curbing greenhouse gas emissions, even if other countries are not yet willing to make similar commitments.

Climate Statement 3

On the following pages are some pairs of statements. For each, please indicate whether the FIRST statement or the SECOND statement comes closer to your views, even if neither is exactly right.¹ With our stopping energy imports from Russia, we should use natural gas as a transition and move quickly to cleaner renewable power that addresses climate change and doesn't have to be imported from unstable countries.² With our stopping energy imports from Russia, we should exploit our natural gas, coal and oil, as well as renewables to achieve energy security. Addressing climate change is a lower priority.

Climate Statement 5

On the following pages are some pairs of statements. For each, please indicate whether the FIRST statement or the SECOND statement comes closer to your views, even if neither is exactly right.¹ Climate change is a major factor affecting future operations, and companies and banks are right to bring it into their investment decisions globally.² Bringing climate change into investment decisions is about forcing a left wing, woke agenda on companies and banks and will hamper flourishing of the economy and our ability to make correct decisions for the U.S.A.

Thermometer - Trump Statement 1- Categorical

Below is a statement by Donald Trump. Based on this statement, please rate your feelings toward the Republicans with 100 meaning a very warm FAVORABLE feeling; 0 meaning a very cold, UNFAVORABLE feeling; and 50 meaning not particularly warm or cold. You can use any number from 0 to 100. The higher the number the more favorable your feelings are toward DONALD TRUMP AND THE REPUBLICANS... I will rapidly rebuild the greatest economy in the history of the world. We had the greatest economy before. Under Biden, it's been a disaster. Real middle-class income has fallen over \$2,000 a year. African-Americans and Hispanic Americans are being hit the hardest. I will give you low taxes, low inflation, low interest rates, rising wages, growing incomes, and fair trade for the American worker. Your energy costs will come down by 50% within the first year. Biden's energy policies caused this inflation, and now everything is on fire. The whole place is a mess, but we can fix it. I'll throw out Bidenomics and replace it with MAGAnomics.

Under my leadership, we had the most secure border in history by far. We've never had a border like this. Under Biden, the southern border has been abolished and millions of illegal aliens have been released into our communities. This is a Joe Biden invasion, allowing millions of people to come in, including criminals and terrorists. It's migrant crime, destroying our country. Last year, almost half of all ICE arrests were criminal aliens, committing thousands of crimes, including murders that devastate families. I will finish the wall and end this flood of foreigners to all our cities.

Thermometer - Trump Statement 3- Categorical

Below is a statement by Donald Trump. Based on this statement, please rate your feelings toward the Republicans with 100 meaning a very warm FAVORABLE feeling; 0 meaning a very cold, UNFAVORABLE feeling; and 50 meaning not particularly warm or cold. You can use any number from 0 to 100. The higher the number the more favorable your feelings are toward DONALD TRUMP AND THE REPUBLICANS... First, I will immediately reissue my 2020 executive order restoring the President's authority to remove rogue bureaucrats, and I will wield that power very aggressively. The departments and agencies that have been weaponized will be completely overhauled so that faceless bureaucrats will never again be able to target and persecute conservatives, Christians, or the left's political enemies. We will get America back to security and patriotism. We will release the horribly and unfairly treated January 6th hostages. Under my leadership, justice will prevail for all Americans. This is my plan to dismantle the deep state and reclaim our democracy from Washington corruption once and for all.

From the beginning, the Democrats spied on my campaign, remember that? They attacked me with an onslaught of fraudulent investigations. Russia, Russia, Russia, Ukraine, Ukraine, Ukraine impeachment hoax No. 1, impeachment hoax No. 2, the illegal and unconstitutional raid on Mar-a-Lago right here. And now this massive election interference at a scale never seen before in our country, beginning with the radical left George Soros-backed prosecutor Alvin Bragg of New York. This election interference has to stop.

Now, we have the worst border in the history of our world. Among the lives lost was Laken Riley, a nursing student at the top of her class. She went on a morning jog, and never returned home. Joe Biden's policy releases illegal alien criminals, like Laken's murderer. Biden shows no remorse. Laken's killer was an illegal migrant, a consequence of Biden's policies. That would have never happened under Trump policy. We are going to fix it with the largest deportation in history.

Thermometer - Biden Statement 1- Categorical

Here is a statement by Joe Biden. Based on this statement, please rate your feelings toward Joe Biden and the Democrats with 100 meaning a very warm FAVORABLE feeling; 0 meaning a very cold, UNFAVORABLE feeling; and 50 meaning not particularly warm or cold. You can use any number from 0 to 100. The higher the number, the more favorable your feelings are toward JOE BIDEN AND THE DEMOCRATS... The great American comeback continues, but more progress is needed. Under my leadership, 15.6 million more Americans have found jobs; unemployment has stayed below 4% for 30 months. In just one year, wages have risen 4.1%. I'm committed to lowering costs for families like those in Scranton by challenging corporate greed, making housing and healthcare more affordable, and reducing prescription drug prices. Republicans prioritize billionaires, raise utility bills, and allow banks to exploit Americans. I will always fight for hardworking families, not the wealthy elite.

Thermometer - Biden Statement 2- Categorical

Here is a statement by Joe Biden. Based on this statement, please rate your feelings toward Joe Biden and the Democrats with 100 meaning a very warm FAVORABLE feeling; 0 meaning a very cold, UNFAVORABLE feeling; and 50 meaning not particularly warm or cold. You can use any number from 0 to 100. The higher the number, the more favorable your feelings are toward JOE BIDEN AND THE DEMOCRATS... The big banks and big corporations are making super profits and have too much power. I issued executive orders that limited big monopolies and sued Apple to reduce their power and prices. I passed a minimum tax that big corporations must pay and proposed billionaires pay a minimum 25% tax. And it's enforced regulations on worker pay and forced companies to have fair union elections. I've taken real steps to keep the American dream within reach and foster a more equal and inclusive society for all of us.

You can use any number from 0 to 100. The higher the number, the more favorable your feelings are toward JOE BIDEN AND THE DEMOCRATS... The Inflation Reduction Act is cutting costs for working families like yours. Cutting the price of insulin to \$35 a month for seniors. Cutting the cost of prescriptions by making Medicare negotiate lower drug prices. And cutting back on our dependence on foreign oil by investing in American clean energy instead. So we can cut more ribbons on factories and manufacturing floors and cut more good-paying checks for American workers. The Biden Administration's Inflation Reduction Act; it's here to save you money, no matter how you cut it.

For too long, big oil companies have bought off politicians so they can get away with ripping us off. That's changing, now. Joe Biden passed a plan to jumpstart clean energy production in America. It's creating good jobs that can't be outsourced and will lower energy costs. \$1800, that's how much a new report says the Inflation Reduction Act could save the average American family just on energy costs.

Thermometer - Biden Statement 6- Categorical

Here is a statement by Joe Biden. Based on this statement, please rate your feelings toward Joe Biden and the Democrats with 100 meaning a very warm FAVORABLE feeling; 0 meaning a very cold, UNFAVORABLE feeling; and 50 meaning not particularly warm or cold. You can use any number from 0 to 100. The higher the number, the more favorable your feelings are toward JOE BIDEN AND THE DEMOCRATS... Under President Biden's leadership, we've tackled key issues affecting the Black community, including capping insulin costs for seniors at \$35 a month, and removing medical debt from credit scores. We've forgiven over \$165 billion in student loans and passed significant gun safety laws. Our administration has made historic investments in HBCUs, expanded the Affordable Care Act, and appointed Justice Ketanji Brown Jackson to the Supreme Court. We're committed to fighting for racial equality, affordable health care, clean water, and economic opportunities for all.

You can use any number from 0 to 100. The higher the number, the more favorable your feelings are toward JOE BIDEN AND THE DEMOCRATS... Trump met with the top oil executives at his Mar-a-Lago Club and said give my campaign a billion dollars. He says drill, drill, drill, while I relax environmental regulations. He committed to repeal all the new climate change laws that encourage changing to renewables, like solar, wind and EVs. Biden says, the threat from climate change is existential. I will accelerate the transition to renewables, expand national monuments and conserve 30% of land and seas by 2030. The fate of the globe hangs in the balance this election.

Thermometer - Main Biden Statement- Categorical

Finally, here is what Democrat Joe Biden is saying about this election. Based on this statement, please rate your feelings toward Joe Biden and the Democrats with 100 meaning a very warm FAVORABLE feeling; 0 meaning a very cold, UNFAVORABLE feeling; and 50 meaning not particularly warm or cold. You can use any number from 0 to 100. The higher the number, the more favorable your feelings are toward JOE BIDEN AND THE DEMOCRATS... We raise the American flag, a symbol of what we hold dear: courage, opportunity, democracy, and freedom. They're the values that built this country. But they're under attack by Donald Trump and his extreme movement that seeks to overturn elections, ban books, and eliminate a woman's right to choose. Joe Biden has made defending our freedoms, and he's running to finish the job. To protect women's freedom to make their health care decisions, keep our children safe from gun violence, the freedom to vote and have them counted. I supported the toughest possible bipartisan law to control at the border and I've just closed the border. I also support dreamers getting a path to citizenship. Under Biden, American democracy will not break. and I'm asking every American to join me. For freedom, for America, Joe Biden.

You can use any number from 0 to 100. The higher the number, the more favorable your feelings are toward JOE BIDEN AND THE DEMOCRATS... The hard working middle class has faced so many struggles. We helped with lowering drug costs and expanded the monthly Child Tax Credit. But the greedy big monopolies and big corporations are making super profits by raising prices. They have all the power. Trump told the big oil companies, donate a billion dollars to my campaign and I will repeal environmental regulations. He'll give even bigger corporate tax cuts. They plan to cut Social Security and ban legal abortions. We tax billionaires to pay for expanded childcare and Child Tax Credit. We need 100,000 more police and support closing the border to get control. The middle class needs to call the shots again.

Climate Policy & Strategy Associates, Ltd - Climate Survey - June 2024 Wave

Online sample of 2,015 voters fielded from June 14 to June 18, 2024.

Margin of error: +/-2.8%.

This survey is based on 2,015 interviews conducted by YouGov on the internet of registered voters. The sample was weighted according to gender, age, race/ethnicity, marital status, education, how many times respondents have voted in recent elections, recent vote method, primary participation, urbanity, cultural views, residence in battleground states and 2020 presidential vote, based on targets provided by Climate Policy and Strategy Associates. Respondents were selected from YouGov's online panel to be representative of registered voters. The weights range from 0.04 to 6 with a mean of 1 and a standard deviation of 0.82.

The margin of error (a 95% confidence interval) for a sample percentage p based upon the subsetted sample is approximately 2.8%. It is calculated using the formula:

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
