Trump-GOP Tax Cuts & Messaging for 2018

April 2018

CAMPAIGNS | CORPORATIONS | ADVOCACY | WORLDWIDE

Methodology

National phone survey

This national phone survey took place from March 25 – April 2, 2018 among 1,000 registered voters from a voter file sample. Data shown in this deck is among all registered voters unless otherwise noted. Margin of error for the full sample is +/- 3.1 percentage points at the 95 percent confidence level. Of the 1,000 respondents, 53 percent were interviewed via cell phone in order to accurately sample the American electorate.

Focus groups in Michigan

The phone survey was preceded by focus groups on March 7-9th among:

- White working class women - Obama-Trump voters & Trump Democrats under 50 from Macomb County, MI;
- White working class women – Obama-Trump voters & Trump-Democrats over 50 from Macomb, County, MI;
- White working class men – Obama-Trump voters & Trump-Democrats from Macomb, County MI;
- African American women from Detroit, MI
- White college educated women – mostly married, Democrats & Independents from Southfield, MI

Key findings

- Democrats hold a 10-point lead in the generic congressional ballot produced by minorities and almost 3-to-1 leads among millennial, college & suburban women. Democrats are now winning seniors and white working class women.
- Strong disapproval of Trump among Democrats exceeds Republicans' strong approval by almost 30 points and there is 16-point margin in the congressional ballot among voters with greatest interest in the election.
- Only 48 percent of voters say their wages are rising and nearly two-thirds say their wages are not keeping up with rising costs.
- Only 39 percent say the tax cut is benefitting them and voters are divided in their support for the new tax law, but opponents have much greater intensity.
- 65 percent say they are more likely to vote for the Democrat that underscores the \$2.2 trillion price tag for a tax law that gives 83 percent of the cuts to the top 1 percent and means less money for education, infrastructure and help with healthcare costs.

Key findings, continued

- After a balanced debate, opposition to the tax cut grows 9 points and the enthusiasm margin for Democrats over Republicans grows from 7 to 11 points.

ECONOMIC CONTEXT:

The economy isn't very strong for families like mine because our salaries and incomes can't keep up with the cost of living.

POWERFUL CRITICISMS

- Costs \$2.2 trillion over the next decade which could have funded public schools, health care or infrastructure.
- Adds \$1.5 trillion to the deficit and now Donald Trump & Republicans say we must pay for it with cuts to Medicare, Medicaid and Social Security.

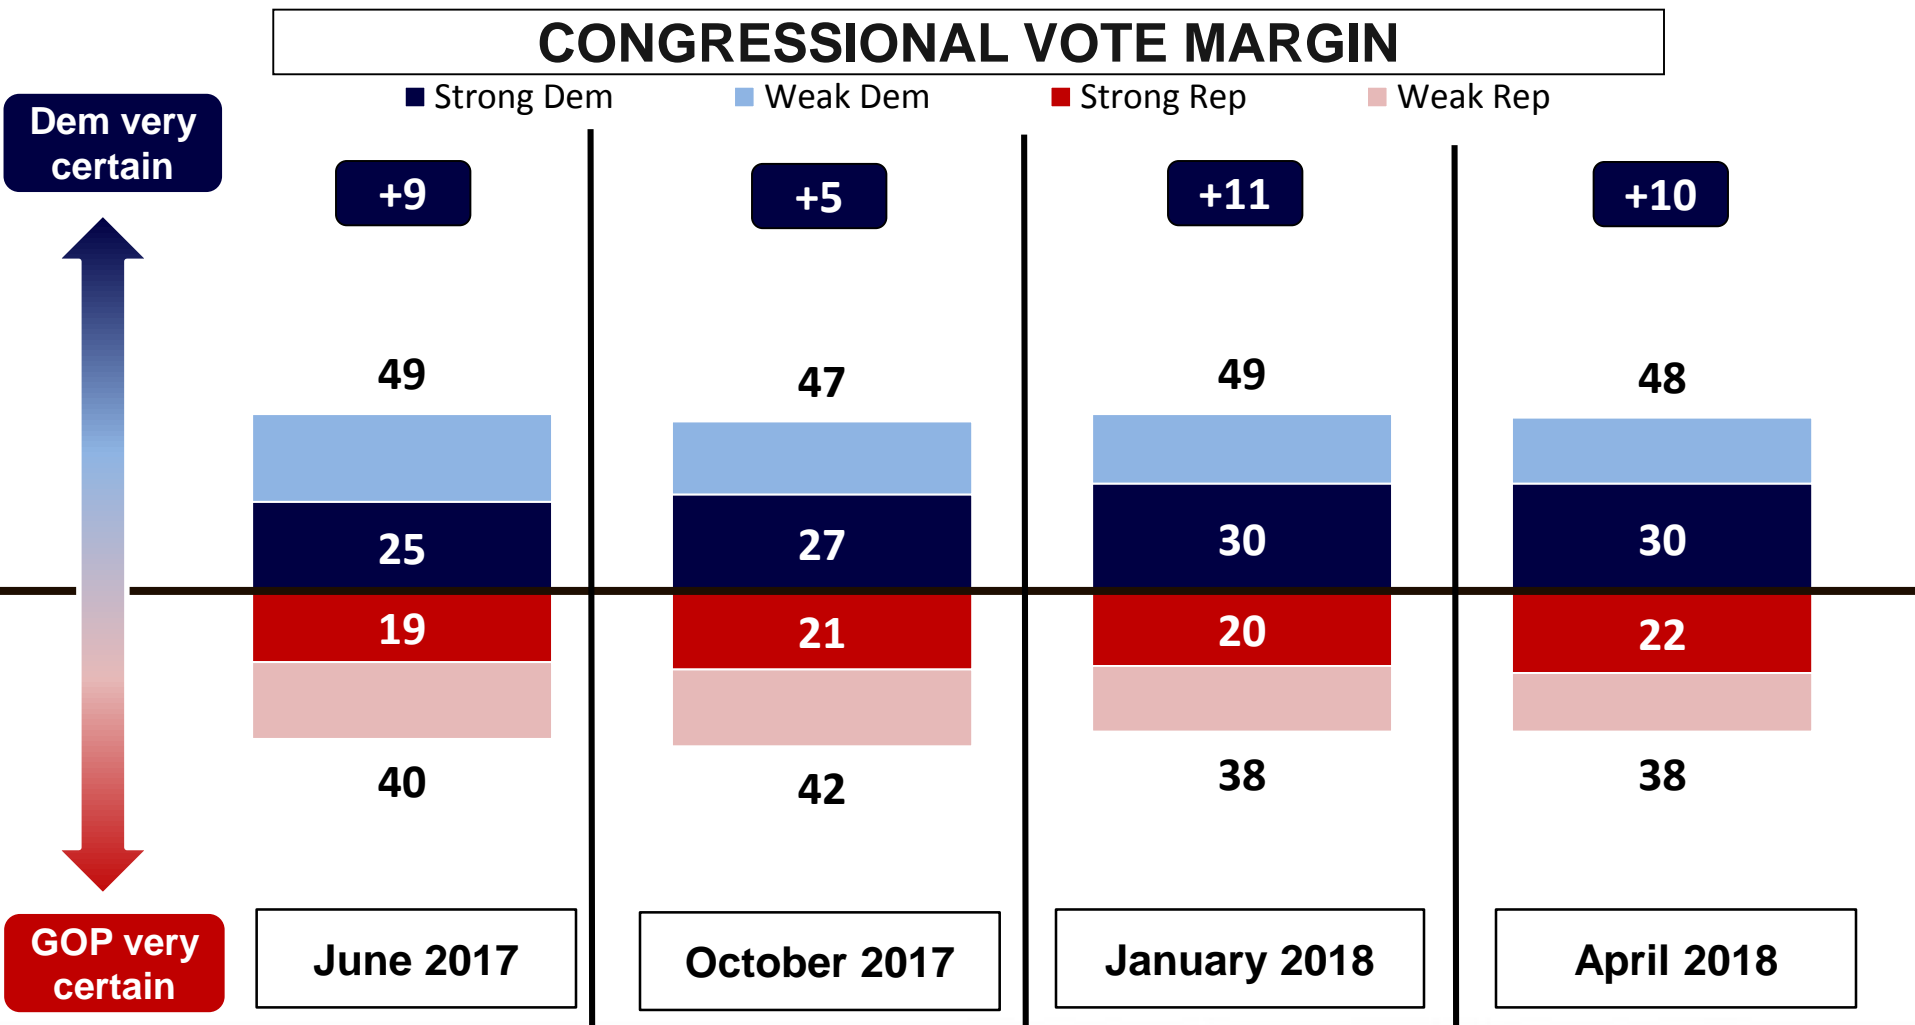

MESSAGE: PRIORITIZE INVESTMENT

The tax law costs \$2.2 trillion over the next decade, which means even less funding for investments the middle class needs for a better future. Instead of a law that gives 83 percent of the cuts to the top 1 percent, that money should be used to invest in our public schools and infrastructure and bring down health care costs.

DEFINING THE TAX CUT

Facts in favor: doubling standard deduction & child tax credit most important

I am going to read you some facts about the new tax law. These are reasons why Donald Trump and Republicans say they support it. Please select the TWO facts that are the most important to you.

TAX CUT FACTS FROM TRUMP & GOP

- All registered voters
- Tax cut opponents
- Tax cut supporters

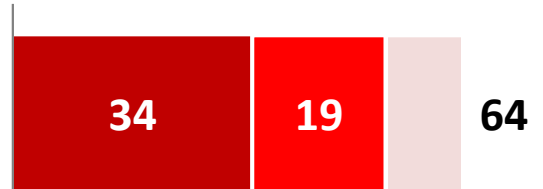

Tax cut proponents' strongest arguments

These are some things that Donald Trump and Republicans in Congress are saying about the new tax law. Please tell me whether that statement makes you much more likely, somewhat more likely, a little more likely, or no more likely to support a Republican for Congress.

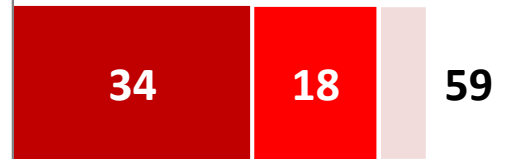

TAX CUT MESSAGES FROM TRUMP & GOP

■ Much more likely to support Republican ■ Somewhat more likely to support Republican ■ A little more likely to support Republican

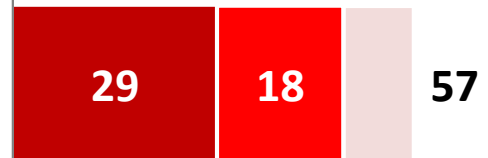

BIZ GROWTH: Tax reform is helping businesses grow, especially small businesses. Small business confidence is now at an all-time high thanks to tax reform. Businesses now feel confident expanding their operations, hiring more employees, and increasing their wages and benefits.

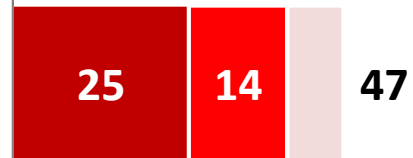

MIDDLE FIRST: As promised, we passed a middle class first tax cut so now millions of Americans have more take-home pay. We nearly doubled the standard deduction and doubled the child tax credit so the typical family of 4 will see their taxes slashed in half. That is real relief for the middle class.

TRUMP NUMBERS: More companies are expanding in the US because of tax reform, which means more good paying jobs. Apple announced a \$350 billion investment and Exxon announced a \$50 billion investment. Plus, workers are seeing more in their paychecks and 3.5 million workers received huge tax cut bonuses.

NO DEM VOTES: The tax cut gives much needed tax relief to middle class families, but not a single Democrat supported it. They say that the average savings of \$2,000 per family is crumbs. They want to raise taxes on the middle class, not preserve these new tax cuts that are growing paychecks and creating jobs.

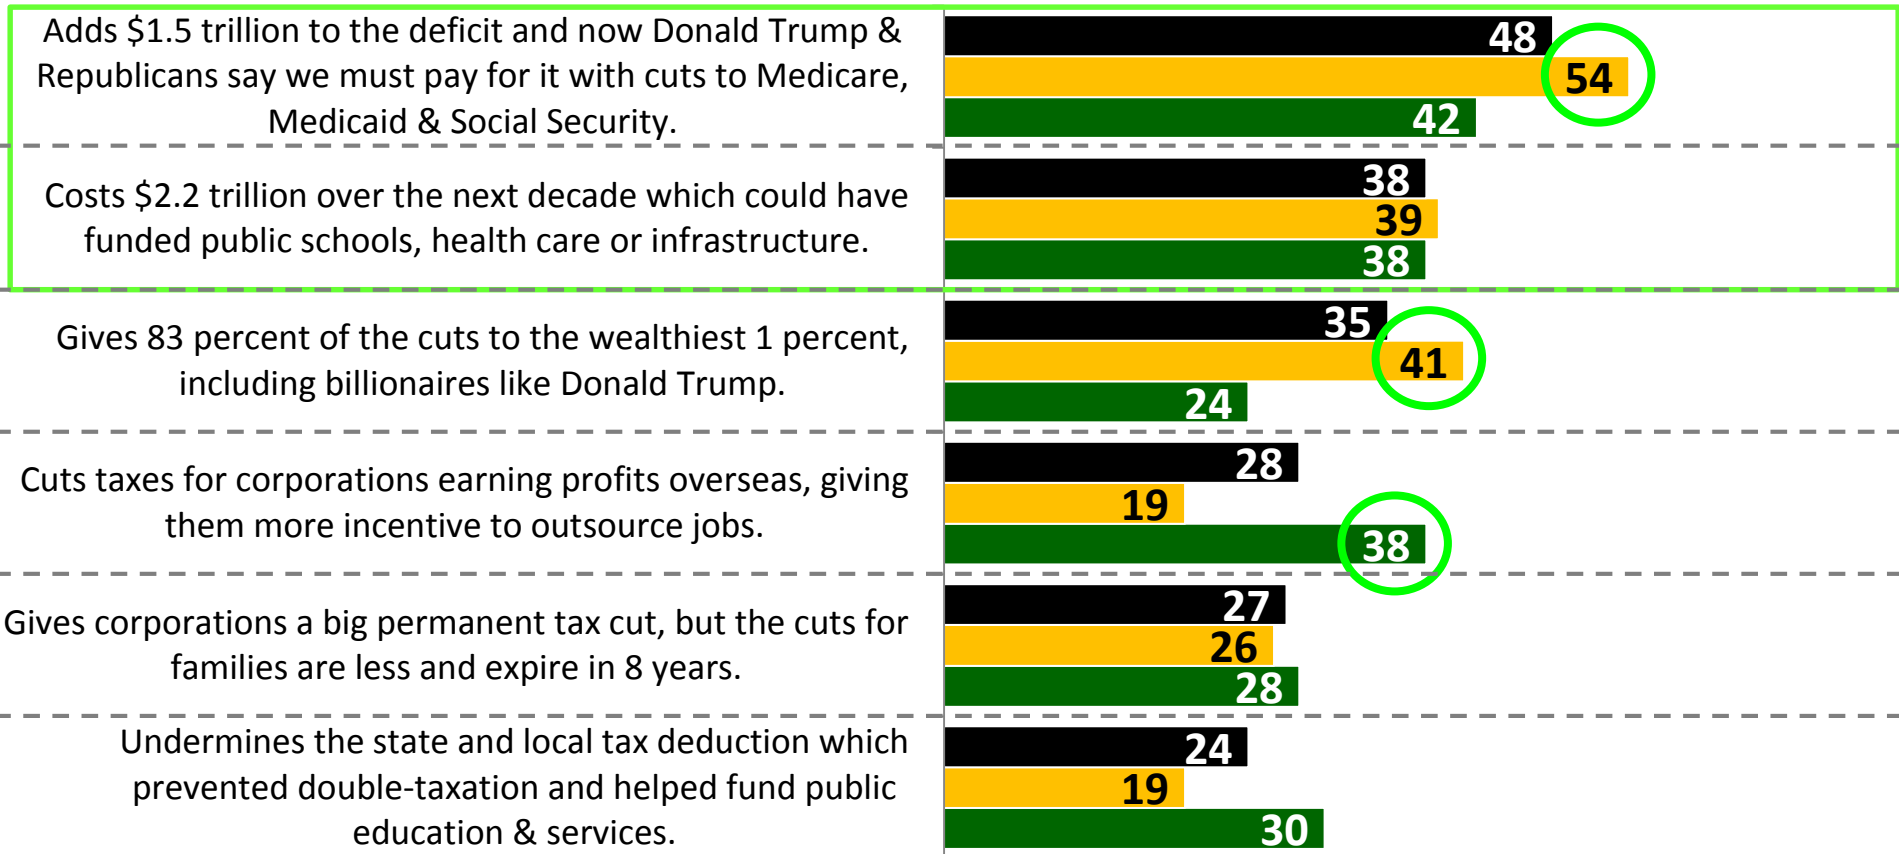

Facts against: deficits & cost hits entitlements & investments like education

I am going to read you some facts about the new tax law. These are reasons why Democrats say they oppose it. Please select the TWO facts that are the most concerning to you.

I am going to read you some facts about the new tax law. These are reasons why Democrats say they oppose it. Please select the TWO facts that are the most concerning to you.

TAX CUT FACTS FROM DEMOCRATS

SHIFTERS TO OPPOSE CUT

Adds \$1.5 trillion to the deficit and now Donald Trump & Republicans say we must pay for it with cuts to Medicare, Medicaid & Social Security.

47

Gives 83 percent of the cuts to the wealthiest 1 percent, including billionaires like Donald Trump.

37

Costs \$2.2 trillion over the next decade which could have funded public schools, health care or infrastructure.

32

Undermines the state and local tax deduction which prevented double-taxation and helped fund public education & services.

30

Gives corporations a big permanent tax cut, but the cuts for families are less and expire in 8 years.

27

Cuts taxes for corporations earning profits overseas, giving them more incentive to outsource jobs.

27

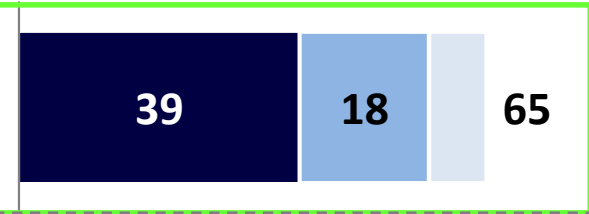

Not trillions to top 1%; instead invest in education, health care, infrastructure

These are some things that Democrats are saying about the new tax law. Please tell me whether that statement makes you much more likely, somewhat more likely, a little more likely, or no more likely to support a Democrat for Congress.

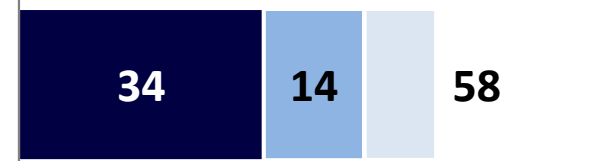

TAX CUT ATTACKS FROM DEMOCRATS

■ Much more likely to support Democrat ■ Somewhat more likely to support Democrat ■ A little more likely to support Democrat

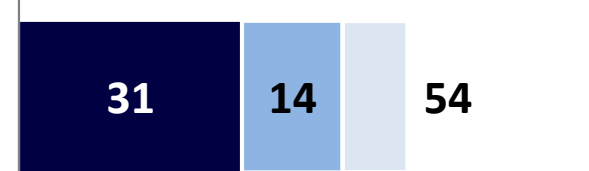

PRIORITIZE INVESTMENTS: The tax law costs \$2.2 trillion over the next decade, which means even less funding for investments the middle class needs for a better future. Instead of a law that gives 83 percent of the cuts to the top 1 percent, that money should be used to invest in our public schools and infrastructure and bring down health care costs.

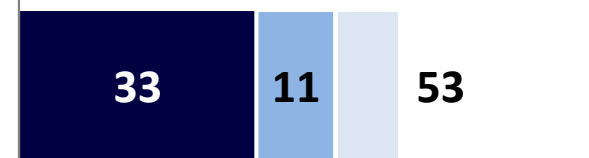

TIME BOMB FOR ENTITLEMENTS: The tax law is a time bomb for the middle class. It adds \$1.5 trillion to the deficit and gives 83 percent of the cuts to the top 1 percent. Now, Trump and Republicans say we must cut Medicare, Medicaid and Social Security to pay for it. The middle class ends up paying more in higher retirement and health care costs.

TAX SCAM TO RIG ECONOMY: The tax law gives a massive permanent tax cut to corporations, while the middle class only gets a small temporary break. Now, Trump and Republicans want to pay for it by cutting Medicare, Medicaid and Social Security. This tax law is a scam that rigs the economy in favor of the wealthy and corporations at the expense of the rest of us.

CORRUPT BREAK FOR DONORS & GOP: The tax law gives billions in new breaks to the Republicans' rich donors, GOP lawmakers and the Trump family. One GOP lawmaker admitted on TV that they had to pass it for their donors, or else! That's why they wrote it in secret with corporate lobbyists and refused to hold a single hearing on its impact.
