The separation of church and state is supposed to keep our laws from favoring the beliefs of one group of people as our country was founded on freedom. Lack of this separation hinders the freedom of a large percentage of our population as dominant Christian values are increasingly overpowering the needs of the communityLGBTQ rights, women's health, and so many other prominent issues within our country.

Roxanne White Unmarried Women Republican Donald Trump Republican 2018 vote Voted Republican Donald Trump 2016 Female 60-69 years College Education	Hmm for me it is the fact that there is just too much illegal activity, whether it is the invasion of our border by those who choose to not respect our nation (or their own), the crimes, the associated enabling of illegal drugs, and the level of violence that has been increased through the rhetoric of both the media and the candidates (there's specifically many who have done this by choosing to put forth their levels of hate/desperation/separation). Additionally, the disrespect for 1st Responders and the Military. When there is more concern for criminals than actually paying the Military Retirees who are not receiving even one penny of their earned Military Continuation Pay (because they happened to become disabled while in the service), that is very pitiful. As someone whose ancestry is from a nation-state that was horrifically treated under the Nazi regime as well as Communism/Socialism I am also opposed to anything that is pushing communism/socialism. Finally, I worked very hard to earn the income and save up to pay for MY Degree Programs (Undergraduate and Graduate Degrees). WHY exactly should anyone be gifted any benefits for wasteful spending and useless degree programs? Finally, I am 2nd Generation American (my Grandparents were born outside of the USA) so there's never going to be any support for the illogical push for reparations when NOT A SINGLE person who is a Citizen today in the USA has ever had any disadvantage for decades. IT is solely that DIVISION/SEPARATION that has artificially produced disadvantage IF you can't produce or compete as an equal, then why exactly are you in that job/profession in the first place?

Anne White Working Class Women Republican Donald Trump Republican 2018 vote Voted Republican Donald Trump 2016 Female 40-59 years Less than College Education	I believe that there are many important issues facing our country, but the one that is draining the system, in my opinion, is the illegal immigration issue. I believe that no one is above the law and entering a country illegally is a crime. Anyone who is here illegally is draining our resources the cost alone; to educate a student in my public school system is over \$25,000 per year. Multiply that by 12 to calculate the cost to educate someone who is here illegally. It is less costly to send them home, although resources are being stretched very thin at the border, trying to cover the numbers of people who have been storming the border. We don't get to pick and choose which laws we will follow. Well, I guess we do, and when we break them, we can be sent to jail. Trump has the country's best interests at heart, understanding that, like good fences make good neighbors, good borders make for a more secure country. Illegal is illegal. There are plenty of legal ways to enter our country.

I LIVE Rurally, I am a MILITARY RETIREE and I can assure you that there's NO railroads that serve my area, no public transportation, Living in a Hurricane Zone it is ludicrous to think that somehow inefficient SOLAR is somehow going to meet even my modest needs as a SINGLE woman (or even find enough power to run my CPAP machine at night, much less power the Fridge/Freezer). I rely on this as a ELDER (including not having to use a Washboard (yes, I AM THAT OLD that I know what it means to use a washboard since we never had a Washer until I entered the Military and found out what one was!) It is astonishing how OUT OF TOUCH all are in every way (and that they don't realize the difference between border jumpers who never will ever respect any nation (not even their own) vice those of us who left our nation of origin to come to America LEGALLY and became Citizens the CORRECT LEGAL WAY by applying, waiting, taking the tests and yes, passing them and taking the oath of Citizenship. Finally, I am very much aware of the variation of the OATH of office all these professional politicians who run their mouths with no substance take (it's a variation of the OATH of Office I took as a Military Office!) and yes, I HONOR that oath to this day (which these politicians have never done. NOT a single one has any ability at all. From the lack of understanding of the 3 Branches of Government (and why there is that division) to the fact that many of them are actually willing to break down that separation and re-make the JUDICIARY into not a 'balance' but an IMBALANCE and TOOL of politics is REVOLTING! Then to add on top of it they are not addressing the breakdown in families caused by their policies (including the fact that none addressed holding the community responsible or the individual responsible for their Crimes), not dealing properly with drug crimes (and there is NO absolutely NO "victimless" crimes they all have victims, how the hell do these idiots think the drugs get purchased by the users the users, the abusers, the cartels and the dealers all are committing crimes against others). IF you control the legal ability to use firearms what does that do to the ILLEGAL Manufacture/sale of firearms (and including how criminals/gangs get their firearms they certainly do NOT purchase them legally you idiots! Make the CRIMINALS serve their full sentences!). When someone heinously murders another (like the ILLEGAL who murdered Kate Steinle) in cold blood and then the DAMN CORRUPT courts let that MURDERER off that is something WRONG There ethically, morally, and in every way the ILLEGAL who murdered her should have been rightfully convicted and already faced the death penalty. Finally, I will say this when you use human shields (and yes, these human trafficking operations are indeed being financed by Democratic Party and its candidates look at the Fed Elections Commission Website to also find out which lobbies/corporations are feeding/fueling the candidates that are in this cycle in the Democratic Party), it's astonishing that they don't realize there's a legitimate concern here for the children being trafficked, and yes, sold over and over again to facilitate these FRAUDULENT CLAIMS of 'fear' for the purposes of invading our nation. IF anything deport them all back to
at this time!
I think Beto O'Rourke has a pretty good shot. He seems to have a lot of followers judging by the number of bumper stickers I see.

I can state that over 60% of my earnings each and every year nowadays is for the DAMN TAX PAYMENTS alonel That means that when an illegal gets free housing, free medical care, free food stamps, even free transportation and then on top of it the cash monthly they actually are able to have in their pockets many TIMES MORE Than I have available at any point in time! I am paid once a month that is allocated towards my bills and I purchase my groceries (the bulk) once a month thay our ealize that my grocery bill is LESS than the amount of public aide on Food Stamp programs (I can assure you that I have NO 'already prepared' meals at all in my grocery cart!). Add on top of this an inability to have any comprehension what over 95% of this nation faces each day (outside of the CTIES that is the 5% that these candidates relate to the privileged few), that's HORRIFYING and a big turn-off how the hell are we going to get to our Medical care (that little there is) when the providers (like my VA provider) is over an HOUR by High Speed Highway EACH WAY away from my home? How the HELL are you going to provide to all in the USA medical care when you can't even care for the VETERANS (like myself) who are Service Connected regularly? WHY do Veterans such as myself WAIT for YEARS to get care (and yes, end up with more serious disabling problems) because of the LACKINGS in the biggest Socialized Medicine that is entirely dictated through the DAMN DEMOCRATS That have controlled the Congress (either house) down through the decades! 	To put it bluntly, all of them disrespect those of us who SERVED (Military Veterans and Military Retirees).
	I am a Military Retiree. IT is a misnomer to call us "Retirees" for what we really are is on "CONTINUATION STATUS" (it is an inactive status, but requires us to maintain uniforms, keep up with our health and physical conditioning as we can, and yes, remain true to our OATHS no criminal status).
	What is SICKENING HERE is that not a SINGLE ONE of these damn democrats ever talks about any of us who served
	NOT a single Democrat recognizes that there are tens/hundreds of thousands of MILITARY who are "Retired" (Continuation status) who do NOT Even receive one penny of our earned Military Continuation pay NOT ONE PENNY.

"
	WANT to show where the 'rubber hits the ramp'? Want to get some positives here Democrats? GET off your asses and PAY Us already and PASS this BILL !!! (Yes, I've waited now let's see it's over 3 decades? to see one penny and NOT A SINGLE PENNY YET!)
