I feel that these issues have been put on the back burner while we spend a lot of time and energy arguing about border walls, gun control and whether or not Trump cheated in the last election. This has to stop and those involved need to be held to account.
Julie_3 | White Unmarried Women | Unsure | Democratic 2018 vote | Voted Other 2016 | Female | 40-59 years | College Education	I think a lot of people would choose the word "intolerant," but I think that just translates "selfishness." We've become very unwilling to treat anyone with a different opinion the way we'd like to be treated when being approached with a view that may not be shared by the masses. We just don't take time to get to know people. Snap decisions are made and shared by crazy social media that further polarize citizens. Kind of hard to solve any problems if we just look at a label (social position/political affiliation/race, etc.) and refuse to sit down and work through options.

Elizabeth | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Democrat Hillary Clinton 2016 | Female | 60-69 years | College Education	I am torn between health care, climate change and economic inequality. If I must choose, I would say health care. Lack of health insurance can be catastrophic; people can die for the lack of a medication or surgical treatment, and paying for treatment that is not covered can leave families in dire financial straits. We should follow the lead of other developed countries and consider health care a right.
Laura | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Democrat Hillary Clinton 2016 | Female | 40-59 years | College Education	Health Care... My husband does not have health care because we cannot afford it even with the Obama care. pharma companies and insurances are sucking the population out of every cent they earn. Karen_5 | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Democrat Hillary Clinton 2016 | Female | 40-59 years | College Education	Health care, national security and income inequality are important issues as too many Americans who may have health insurance are under-insured; adversarial countries as well as the incumbent President are attempting to bring down our Democratic Republic; and wages between the sexes for being paid the same for doing the same job is not the only aspect of income inequality. Since returning to Michigan, wages are less now for many jobs than they were 15 years ago.

I am worried about affording my aging days due to the high costs of life. I am worried about global warming and climate change and technology that keeps America in the forefront being not given any support under the current WH and Senate leadership. I worry about the US image in foreign relationships being so damaged by this current administration. I am also very concerned about clean air and water from the debacle of leadership at the US EPA and US National Parks caused from lack of belief in science at our WH leadership. I am also afraid of immigration problems hurting our country for a long time that will cause so many additional problems on children. Affordable education needs to come back and getting lobbyists out of running our country needs to happen now. Congress and the Senate as well as the WH need to be cleaning up their greed now as it is hurting this country and its morals at the top trickling downward.

He got away with stealing the election worse than when the Supreme Court ruled in favor of George Bush. Trump should be impeached and he shouldn't be allowed to run. He should be in jail. That said, Kamala, Pete, Joe would be the best candidates to defeat Trump because they have the best resources and the best intelligence. They just can't win if the election is stolen again.

Judi | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Democrat Hillary Clinton 2016 | Female | 60-69 years | College Education	Not sure yet if any would match well against Trump except potentially Kamala Harris because she directly strikes out at issues and would not back down from Trump. I think Trump could look very petty going after her.
Carol_3 | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Democrat Hillary Clinton 2016 | Female | 60-69 years | College Education	I think Trump would be afraid of Kamala Harris who is a strong women just like Trump is afraid of Nancy Pelosi. Val | White College Women | Other | Republican 2018 vote | Did not vote 2016 | Female | 40-59 years | College Education	Ms. Harris. She is bright, has already proven she will stand up for shat she believes in as attorney general for the State of California. She does not back down from her principles or what she believes in and would not be intimidated by Donald Trump. I would love to see how she responds to him.
Jayne | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Democrat Hillary Clinton 2016 | Female | 60-69 years | College Education	Biden as the leader with a team approach of fixing up and calming Americans and the world again. It takes hand holding, calmness and common sense. All Democrats have to UNITE and stop bickering and start doing! I want Biden, Hickenlooper and Mayor Pete to unite together and get to work now to fix the problems worldwide that Trump has boogled so badly!
Cecilia | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Other 2016 | Female | 60-69 years | College Education	Biden may be the only one to hold up in that battle. Lynda | White College Women | Republican Donald Trump | Republican 2018 vote | Voted Republican Donald Trump 2016 | Female | 40-59 years | College Education	If the election were held today, Trump would crush them. Melanie | White Working Class Women | Unsure | Republican 2018 vote | Voted Democrat Hillary Clinton 2016 | Female | 60-69 years | Less than College Education	I really do not believe Roe vs. Wade should be a "religious" stance held by the Democrats. There is a vast difference between a woman choosing what she does with her body and taking a life -- she has many opportunities to make "body choices" before getting pregnant and many choices should she choose to maintain a pregnancy. Being an adoptive mother myself I know adoption is a valid, respectable choice.

Rebecca | White College Women | Republican Donald Trump | Republican 2018 vote | Voted Republican Donald Trump 2016 | Female | 40-59 years | College Education	Every item they discussed mentioned taxes and every program will cost money. They mentioned taxing the rich, but the rich (Bezos, Gates, Schultz, etc) also give lots of money to charitable organizations, as do their employees. I agree that taxes should be spread more evenly, but then you cannot allow states and cities to give tax breaks. I lived in the UK for 10 years and paid taxes there. I don't know how you are going to get Americans on board to pay over 30 or 40% of their wages toward taxes that they may never see the benefit of.
Jenn | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Democrat Hillary Clinton 2016 | Female | 40-59 years | College Education	A couple of the candidates who only had one sentence or one issue to stand on like "passing the torch" or "making America the best country for our children" or "a monthly stipend for all". A couple of the candidates who were obviously not prepared to debate ALL of the issues. I am also doubtful of the democratic party because there are so many candidates in the race at all. It's confusing for voters to separate them all. Honestly, if you find yourself saying things like, "I agree completely with Biden on this and I support him" then why are you even in the race? Just get out of the race and support the candidate you are touting for anyway. I am concerned with so many candidates the votes will be too split and we won't end up with the best candidate as the nominee.
Cecilia | White College Women | The Democratic candidate | Democratic 2018 vote | Voted Other 2016 | Female | 60-69 years | College Education	Some ideas like giving all adults a thousand dollars a month are just nuts. The more they rant and rage about a woman's right to abortion, the more they will play into the hands of Trump's fear-mongering. They need to pull themselves more to the middle in order to heal this country.
Val | White College Women | Other | Republican 2018 vote | Did not vote 2016 | Female | 40-59 years | College Education	I think they really do not realize how much crime has been committed by undocumented immigrants. Also, how many gangs have been started by undocumented immigrants. I do not think children should be separated from their parents and think that is horrible. Also, I disagree with funding higher education for everyone. The economic burden on this country would be too high. If someone chooses to have 3, 4, or 5, children they should be prepared to take care of them financially and not shift that on to other taxpayers.

Are they kidding? There are Americans sleeping in the streets without food , shelter and healthcare. We can't take care of our own. How are we going to take care of rest of the world? It is shameful how liberals ignore our growing homeless issue and struggling middle class just so they can recruit more voters through immigration.

Student debt. should just erase all student debt because so many including my daughter are struggling to keep up with payments and living a very simple life because they cannot afford anything else having to pay rent, transportation, food and then student loans. .

And sometimes, cosmetic surgery is rightful if it has to do with trauma, medical conditions, or war. Each situation is unique, just as each person is unique. Putting people into "boxes" never helped anyone. When I grew up, women were thought of as ornaments, child rearers, etc. Most of us know what it is like to be judged unfairly. No person should have that.

Val | White College Women | Other | Republican 2018 vote | Did not vote 2016 | Female | 40-59 years | College Education	Long term care and would Medicare For All benefits expire out like they currently do if a chronically ill person cannot reset their benefits by staying out of medical care for 60 days straight which is impossible when you are chronically ill and need health insurance the most. Needed to discuss this more. Also, would Medicare for All by better run than the VA which is terrible. What about pharmacy benefits when someone is in a nursing home the well spouse should not have to go practically bankrupt and prescriptions medications should be covered and skilled nursing care should be easier to come by.
