75 (VALUES) Today, we are in a battle for the soul of America, and Donald Trump has decided not to represent the whole country. It's time to remember who we are and fight back against the incredible abuses of power we're seeing. 79 (ENGAGE THE WORLD) This is a moment when American leadership is needed more than ever to address some of the greatest economic and security challenges in the world, but this administration has repeatedly broken our word and withdrawn from our commitments to allies. The leaders of the world are watching this, not just our adversaries, but also our allies, and it undermines our strength as a nation. And when that happens, there are serious consequences. 81 (CORRUPTION) We need to tackle the corruption in Washington that makes our government work for the wealthy and well-connected, but kicks dirt on everyone else. We will start by ending lobbying as we know it by closing loopholes so everyone who lobbies must register, shining sunlight on their activities, banning foreign governments from hiring Washington lobbyists, and shutting down the ability of lobbyists to move freely in and out of government jobs.	30	27	19	17	7	57	76	59

A two-cent tax on the great fortunes of more than $50 million can bring in nearly $3 trillion to rebuild America's middle class, so we can make big investments that support American jobs, greatly expand innovation in renewable energy and green manufacturing, and help families by funding universal pre-K and child care, early childhood education, and student loan debt relief. 25	25	15	28	8	50	65	37

We need cost-effective security at our borders and relieves the burden on our criminal justice system, addresses the root causes of migration, and gets back to a system of legal immigration that enriches our country. 24	22	15	33	6	45	61	27

84 (THINK BIG) We need big, disruptive change to level the playing field, so our democracy and economy work for everyone, not just those at the top. We can start by ending lobbying as we know it, We can create an Ultra-Millionaire Tax on America's 75,000 richest families so we can build an economy that works for everyone. That means investing in universal childcare, student loan debt relief, affordable housing, and down payments on a Green New Deal and Medicare for All. It won't be easy. 91 (TAX CUTS FOR RICH) Joe Biden brags about his bipartisan deal making skills, citing the deal he cut Republican Senate leader McConnell to raise the top tax rate by $600 billion. What he doesn't mention, is that deal was a complete victory for the Tea Party because it kept in place the tax cuts for those earning overt $250,000. It put in place the mindless cuts to vital programs that we still are dealing with today. That was a great deal for Mitch McConnell, but not for hard working Americans.	19	19	26	18	19	**38**	**63**

Democrats won't do anything about border security, and people are coming in by the thousands which means job losses, violent crime, drugs, and human trafficking. 101 President Trump ran for president saying he would govern for the "forgotten Americans" and "would drain the swamp of corruption in Washington," but he's packed his government with corporate lobbyists. His tax cuts have only made the rich richer. It's greed pure and simple. And his government has pushed up health care and drugs prices for working people. 102 (SPLIT C) Healthcare is a basic human right, and I wont stop fighting to get to Medicare for all, even though ending private health insurance will be very hard to achieve. The basic business model of an insurance company is to take in as much money as they can in premiums and pay out as little as possible in health care coverage. We can always look for better ways to regulate business, but it doesn't work in health care because the motivation for profit produces out control prices and drug costs that kill people. So, I'm going to fight to get to Medicare for all	18	17	17	38	10	**36**	**52**	**15**

[1250 Respondents] 103 (SPLIT D) I support Medicare for all and getting to a single payer system, like Canada. Here is how I will get there. I would greatly improve Medicare immediately to reduce prescription drug prices, cover dental and long-term care and have no deductibles. Medicaid would become part of plan and all children would be automatically enrolled. Employers who provide comparable coverage can continue providing private insurance or enroll them in this enhanced Medicare. Employees can change to Medicare at any point. After 5 years, the Congress will vote on whether to transition to Medicare for all or continue with the mixed system of enhanced Medicare and private insurance.	18	17	19	39	8	**34**	**53**	**14**
